Bowl Loop

“Loop” – precious bowl or artful sculpture? Twisted and entwined tails, hammered stainless steel on a base of black marble and the imposing height of almost 70 cm will leave a lasting impression. Whether containing fruit or by itself, the effect is guaranteed. These elaborately handcrafted, unique items will capture the eye from every angle. The asymmetrical shape and the irregular structure of the highly polished surface generate fascinating reflections and exciting light effects.

PEARLS OF THE SOUTH SEAS

Bowl Cave

Like a shell hiding a pearl, the porcelain miniature “Cave” conceals precious delicacies within its hard outside. The porcelain object at first sight only partially reveals what it hides inside. “Cave” consists of intricately worked hard porcelain and captures by its soft shape and the velvety haptics of the unglazed outside. You cannot help but touch this small cave-shaped bowl. Like a palm stone made from white gold, it combines a soft look and feel with delicious content.

PILLOWED ON GLASS

Donna

These elegant glass pillows, modelled after the curved back of a woman, certainly are not suitable for a good night's sleep. The new variant of the “Donna” pillow is crafted from frosted glass that in spite of its hard and solid material surprises with its pleasantly soft and velvety feel. The organic shape of these extraordinary pieces offers an ideal presentation area for sophisticated dishes or a fancy place to keep all sorts of small objects of everyday life. Even when in use as a soap dish, the pillow cuts a fine figure. “Donna” in a larger, hard porcelain version is also available in the Selection main catalogue on page 19.

honey spoon

with tray made of black glass

PLUG & PLAY

Honey spoon Cuspis

A honey spoon of a somewhat different kind. In elaborate handi-craft the glass ball has been studded with spikes that hold on to the honey and, when softly turned, apply it to either a slice of fresh bread or a cup of tea in a dripless manner. The tapering handle made of white borosilicate glass can also be used as a skewer - for an extravagant presentation of dishes. A fitting tray made of black glass keeps the table surface clean and accentuates the spoon by creating an appealing contrast.

THE ACORN NEVER FALLS FAR FROM THE TREE

Nº 4943.08PB

Nº 4943.10PB

Cloche Cuspis

The acorn gave the inspiration for the shaping of the filigree borosilicate cloches with their fitting porcelain coasters. The ball-shaped handle at the tip of the cloches is studded with delicate glass spikes and allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain bowls with its distinctive texture

is reminiscent of acorn caps. The coaster can be used on both sides. When used as a plateau plate, the dishes move closer to the guest. Used as a bowl, it offers space for gravies, sauces and more while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time.
