- 42 CARE

We have been developing products for almost forty years and continue to develop and learn new techniques; this enables us to produce cutting edge items to keep pace with the evolution of mixology and drinking culture. Whilst at the same time we are striving to bring the skills of the past back into the future.

We don't release an item if we are not entirely confident in its design, functionality, quality and proud enough to allow it to carry our name.

We have developed this attention to detail and passion in our products through seeing how they are used and the energy and devotion put into the creation of a drink or the release of a new spirit.

Should you have any questions, issues or an idea for a new product then please do not hesitate to get in touch with us.

The main aspect of our business is working alongside many of the world's leading drinks companies to develop their bespoke glass and barware.

*For more information please see **page 40**.*

RETRO

RETRO

PITCHERS

SCANDIA

BPA-free SAN plastic stacking jugs with CE marked options.

FRESCO

BPA-free SAN plastic stacking jugs with a CE marked 4 pint option for licenced application.

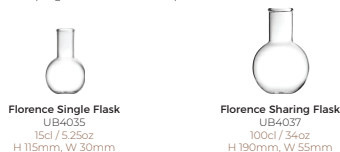

URBANO

BPA-free SAN plastic straight sided jug.

FLORENCE

Unique glass vessels in the shape of a flat-bottomed lab flask.

PLASTIC DRINKWARE

IRIS

BPA-free Tritan plastic stems and tumblers for a complete shatterproof drink service. With premium clarity, these items boast stain and odour resistance for regular use with greater longevity.

Less dense than other plastics, our Iris drinkware features reduced stress on the structure of the vessels for a shatterproof finish, that can withstand the rigours of everyday use. A common breaking point on stemware is the stem itself, however, the Iris stems have greater pliability, allowing them to take more pressure than other stemmed pieces.

STACKING

Stackable drinking tumblers made from BPA-free SAN plastic.

WINE

AERO WINE MEASURES

Lending our touch to the world of wine service, Urban Bar have given a much needed redesign to the classic wine measure. Doing away with the unimaginative, simple tubular shape, our wine measures have borrowed from the runaway success of the sleek Aero Jigger and added a smooth concave curve for a design that is both aesthetically and ergonomically enhanced.

Aero Wine

urbanbar

FREEPOUR®

A registered design with practicalities in mind as opposed to just pouring or storing.

Blue (UB100B)
Red (UB100R)
Yellow (UB100Y)
Orange (UB100O)
White (UB100W)
Green (UB100G)
105cl / 37oz
H 340mm, W 99mm

- Three pieces: coloured top, storage base and matching coloured storage lid
- 1.08L brim full: not a US quart (95cl) so a 5% saving in the juice bill
- Air intake hole on shoulder prevents blockages and allows smooth flow of juice
- Choice of 6 colours
- Textured neck for easy grip
- Fits all speed rails
- All pieces go straight in glass washer: no more forcing of pouring spouts, soaking or having to remove and clean pieces.
- The plastic is not brittle so tops less likely to break when dropped
- Rigid, semi transparent, wasted body: easy grip, prevents flexing and spillage when filling

BARRELS

AMERICAN WHITE OAK AGEING BARRELS

Ageing your own spirits and cocktails gives you a unique opportunity to create something new. Our tabletop mini oak barrels let you innovate on popular spirits, and create new tastes. The American white oak has a medium char, imparting a smokey, smooth character with vanilla and caramel flavours.

Each barrel comes complete with oak stand, spigot, bung, funnel, storage tablets and instruction leaflet.

SUITABLE FOR

- Whisky
- Tequila
- Cocktails
- Brandy
- Bourbon
- Port
- Rum
- Sherry

COMPLETE COCKTAIL KIT BAG

The ultimate in cocktail kits, containing 15 tools, everything necessary to create a peerless cocktail. As well as the large equipment pocket with space for bottles, the other side of the bag also has a separate pocket to hold personal items.

Kit Contains:

- 30oz Boston Shaker Tin
- 16oz Boston Shaker Glass
- Hawthorn Strainer
- Julep Strainer
- Fine Strainer
- Classic Bar Spoon
- Waiters Friend
- Hammer Jigger
- 5 x Freeflow Pourers
- Victorinox Bar Knife
- Nylon Chopping Board
- Muddler
- Victorinox Peeler
- Zester
- Lime Squeezer
- Ice Tongs

COCKTAIL KIT BAG
UB78
350mm x 400mm

KIT BAGS

LEATHER KIT BAG

The ultimate in kit bags, hand made from premium brown cow hide, it has a strong handle and removable, adjustable shoulder strap. The interior has a large internal zip pocket and a smaller pocket for a phone as well as seven compartments. The compartments have Velcro on the walls enabling them to be adjusted to fit different sized items. The large compartment can either take the matching bartender roll and/or two to three spirits bottles. The base is padded and underneath has 6 metal feet. We recommend some leather food to help with the upkeep of the leather.

LEATHER KIT BAG (BROWN)
H 270mm x L 400mm x W 250mm
UB4481

Tools not included

BARTENDERS ROLL

Made from premium brown cow hide, padded and lined in ballistic nylon. With a variety of elasticated loops (sixteen) and three adjustable Velcro straps, it can accommodate virtually any tool. There are two padded flaps to fold in and then roll, tying up with two leather straps.

Tools not included

LEATHER ROLL (BROWN)
L 450mm x W 350mm

DESIGN RIGHTS

All copyright, design rights and intellectual property rights existing in our designs and products are and will remain the property of Urban Bar/Sandbar AP Ltd.

We work alongside many of the world's leading drinks companies to develop their bespoke glass and barware, this is the main aspect of our business.

- Develop concepts/items within brand guidelines, that can be manufactured
- Producing renders, technical drawings, 3D printed, plexi models and actual samples
- Offering all packing and branding options
- Offering competitive costs including global delivery/stock holding as required

We can offer this service in glass, steel and plastic from as few as 500pcs of handmade glass and 20,000 machine made.

CARE

CARING FOR GLASS

All Urban Bar glassware is dishwasher safe, however care and attention is always recommended when handling and cleaning our glasses to increase their lifespan.

MECHANICAL SHOCK

Mechanical shock refers to a physical impact on a glass, usually from another glass, or piece of tableware. All glasses have a certain resistance to mechanical shock, however repeated impacts will reduce the strength of any glassware item.

THERMAL SHOCK

Sudden changes in temperature on a glassware item is known as Thermal Shock. Due to dense nature of glass, fast expansion and retraction of the material when exposed to heat or cold can weaken the overall structure of the item. All glassware has a certain level of thermal shock resistance, however repeated exposure to sudden temperature changes can lead to glassware breakages.

GUIDELINES

Follow these simple guidelines to help increase the lifespan of your glassware.

- Hand wash Urban Bar glasses individually, and do not soak them with other glasses
- Avoid the rims of martini glasses coming into contact with other glasses
- Never scoop ice with a glass or stack them, unless they have been designed for stacking
- When pouring hot drinks, always preheat the glass with hot water
- Conversely, never put cold water or ice into warm or hot glasses

CARING FOR STEEL

Our stainless steel items are all made from the more premium of the two steel types used in the catering industry (18/8) and as such needs no care guidance and can take everything a normal bar can throw at them.

CARING FOR PLASTIC

Whilst all our plastics are dishwasher safe and virtually unbreakable, they should not be used with boiling water. If handwashing, do not use abrasive cloths.

CARE

CARING FOR PLATED STEEL

These need a bit more looking after than your regular steel. While the plating is secure on the steel item, it is a coating, so could be scratched off if not looked after properly.

- Hand wash only and no abrasive scrubbing
- We do not recommend metal polishes as these will slowly remove the coating and could leave a residue affecting the taste of drinks made with the tools.

CARING FOR CAST IRON TEAPOTS

Our teapots are made of iron and lined with enamel so they are both hard wearing and durable. Nevertheless it is necessary to treat them with care.

- Before using a pot for the first time you must rinse the pot and infuser with boiling water and dry thoroughly
- Never use cleaning products either inside or outside of the tea pots as this may damage the surface
- Store in a cool dry place and avoid contact with salts and oils
- Avoid placing the pot in cold water whilst it is still hot
- These tea pots are not suitable for boiling water in

CARING FOR BARRELS

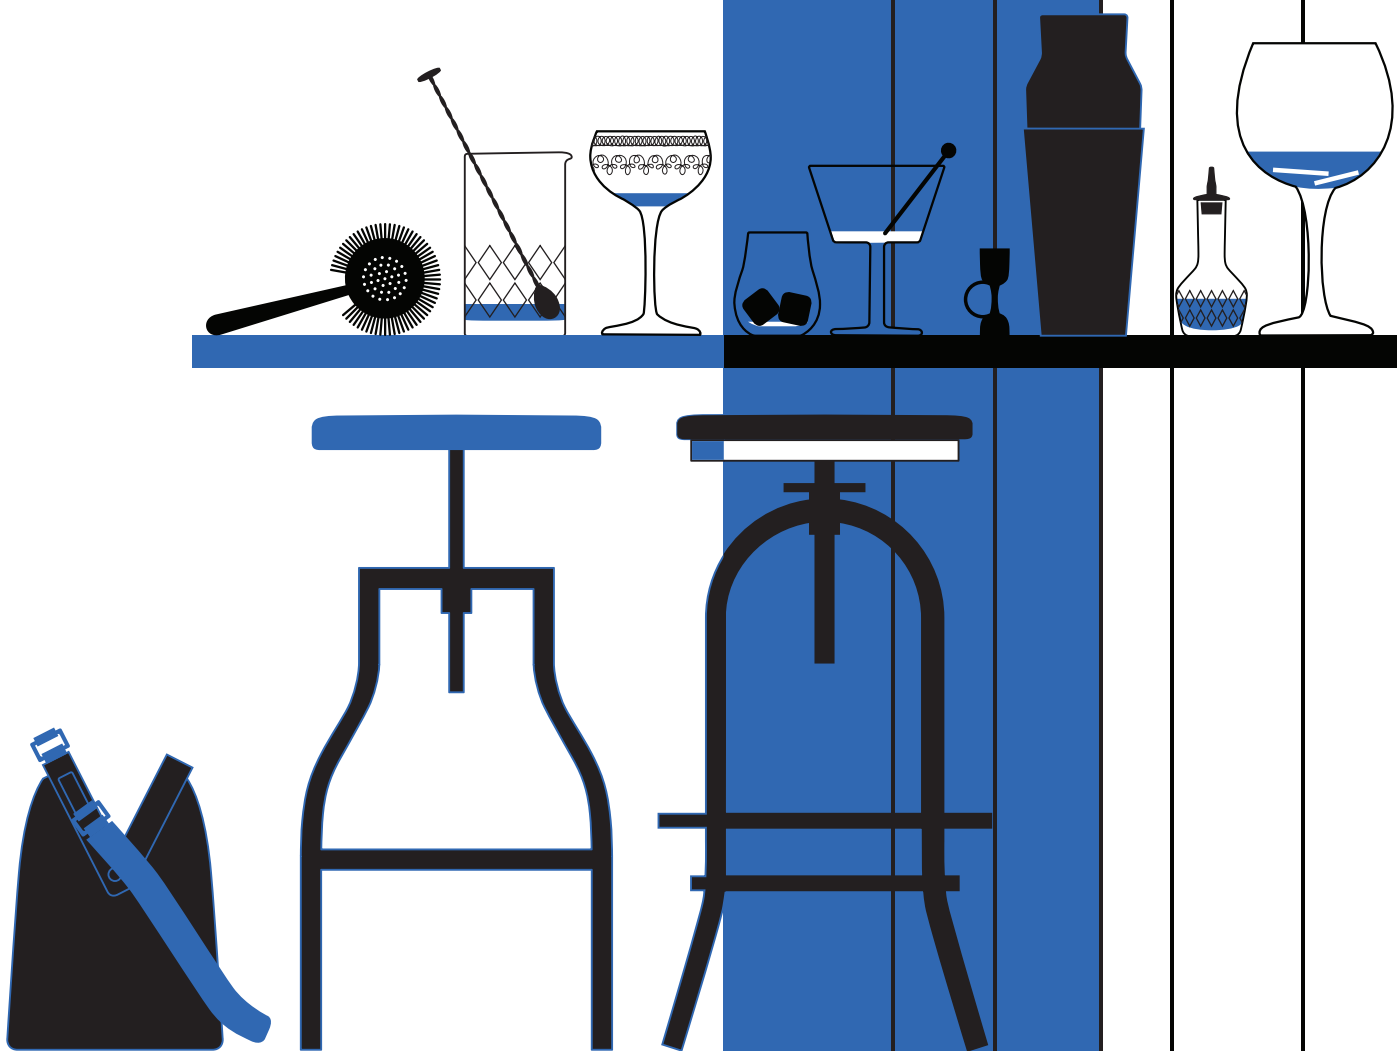

Oak ageing barrels are a long-term investment. Designed to age spirits and cocktails for months at a time, our barrels are expected to last up to 10 years if treated correctly.

- Always cure your barrel before first use
- Never let your barrel dry out - a dry barrel can be permanently damaged
- Use separate barrels for different spirits - after a barrel has been used, the wood will have taken on some of the flavours and characteristics of the contents
- Store your barrel in a cool, damp environment to minimise evaporation
- Inbetween use, keep the barrel filled with storage solution to prevent it from drying out

Please visit our website for extensive barrel use and care guides.
