

"Cuspis"

The large cloche "Cuspis" and the suitable plateau plate are available on page 152.

Borosilicate glass in its most beautiful shape!

The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with a fitting porcelain plateau plate/mini bowl are available in three sizes and the inspiration for their shaping was derived from the nut of the oak tree.

The star-shaped handle is located at the top of the cloches and allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain bowls is reminiscent of acorn caps. The bowls can be used on both sides. When used as a plateau plate, the dishes move closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Used as a bowl, it offers space for gravies, sauces and more.

"Flex" - Perfectly designed and beautiful!

Tubes made of borosilicate glass – shaped into unique pieces by way of heat exposure. These perfectly designed elements of the "Flex" series can only be manufactured in such a sophisticated quality by extremely precise control of timing at exact temperatures.

Elegant presentation plates for amuse-bouches, fingerfood and other artfully arranged delights of upscale cuisine originate from this complex procedure. The "Flex" series is also suitable for intermediate courses or smaller desserts as well as presentations of bread and oil or dips.

The artfully curved inside of the tubes offers creative space for cutlery or napkins, decorative herbs, edible blossoms and more!

A rest for knives or chopsticks in the same language of design blends harmonically into this series. Chopsticks made of borosilicate glass are the perfect completion for this line. The satined surface of the sticks provides for pleasant haptics and creates an appealing contrast to the clear glass of the rest.

No sliding, no clattering – with non-slip pads by Zieher!

The china series "DressCoat" is available on pages 156 and 157

The coasters made of food safe silicone are shapely accessories with a highly practical benefit. Clattering and wildly sliding miniatures on plates and trays are a thing of the past.

The skid-proof discs with their delicately structured, matt surface facilitate the service's work and ensure undisturbed enjoyment for the guest.

The coasters are available in two colours; the white ones can be integrated discreetly, whereas the black ones can be used deliberately as contrasting, decorative elements

4930 + 4681.S

These spherical bowls made of borosilicate glass accentuate in particular artfully presented dishes by their minimalistic and elegant design. The flattened bottom of the bowls ensures a safe and even stand. Optionally available silicone rings for the small version guarantee skid-resistance and also allow a positioning at an angle. All bowls are made of borosilicate glass, whose strength, temperature resistance, high transparency as well as absence of bubbles guarantee a high quality product experience.

The baskets of the "Reef" series are available on page 219.

Double-walled thermo glasses

Handblown, double-walled glasses made of borosilicate glass combine spectacular optics and extraordinary technical features. The vacuum between the two glasses prevents the formation of condensate on the outside of the glass when the ambient temperature is warm and the drinks are cold. The isolation effect keeps cold and warm liquids cold or warm for a longer time. Borosilicate glass by Zieher stands out due to its hardness and high temperature resistance.

More items of the "Reef" series are available as of page 70.

Large numbers of single parts are casted from premium pewter and subsequently assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork.

The products of the "Reef" series are genuine gems of dining culture!

The small presentation baskets can be equipped with various miniatures made of clear or coloured glass and give your food a stunning stage.

The glass bowls "Cave" are available on page 82.

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With Zieher's two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black resp. white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used. The pads can also be used on the buffet. For further information, please have a look at pages 44 and 45.

skewer

stainless steel 18/10, polished, 24 cm long

item	version	PU
1939.01	Moon	12 pcs
1939.02	Flame	12 pcs

Slate is a unique and exceptional natural product. The surfaces of our slate plates have the typical slaty cleavages, therefore every piece is unique. Small deviations in structure, thickness and weight of the plates cannot be avoided because of the nature of the product. There may be single inclusions of other minerals and fossils. These extraordinary features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles.

Marble is a natural product, which means that the dark brown marbling can vary strongly. This is exactly what creates the vivid and unique look of this natural stone. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles. Please clean only with a wet cloth and gentle cleaners. Not dishwasher-safe. Cleaning in a dishwasher may dull the surface.
