All information about the "Bento Box" is available on page 129.

## Bento Box - flexible mobility

Serving guests at the pool, beach or on the terrace is often associated with longer walking distances for service staff. The "Bento Box" from Zieher has been designed especially for these requirements - all components are stackable. This way, they guarantee a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time.

Matt black melamine, modern design and subtle contrasts, created by different surface structures, form the perfect setting for individual creations and popular classics such as burgers, club sandwiches or salads.

The versatility of the individual components also becomes evident in the cover, which has decorative ventilation slots to dissipate steam generated by hot food. This lid can also be used as a tray, whose less finely textured inside has an anti-slip effect.

## Enjoyment in a pentagon

These classy service platters take effect by their exceptional shape and the stylish combination of oiled walnut wood and slate-grey ceramics.

Available in two different sizes for just one or more persons, single courses right up to mixed arrangements - so-called "sharing plates" - can be staged appealingly.

For bigger buffet setups, several plates can be arranged space-saving and thus provide an extraordinary structuring of the buffet spaces. The pentagonal design allows numerous arrangements - as a result, beautiful presentation areas for regional delicacies, desserts, antipasti and much more can be created.

The projecting handle permits an easy removal of the insert and thus allows an uncomplicated cleaning of the thin but very robust ceramic.

Sublime in their appearance, unadorned in design, practical by compact formats and highly functional in combination - the solid wood boards of the series "Connect!" convince as a snack board, serving or cutting board, or as a presentation platter created by the combination of several elements.

"Connect!" is an extremely versatile tool for everyday use. The integrated tenon in the shape of a dovetail serves as a decorative handle with an artisanal touch. Suitable cutouts at the underside allow an easy combination of different elements. Skid-proof positioning feet ensure a firm stand, the slanted outer edges facilitate handling. The solid walnut wood is sealed with high-quality oils, which makes it easy to freshen up the surface from traces of everyday wear and tear.

Please note the care instructions: not dishwasher-safe, do not immerse in water!

## Breakfast in bed – inroom dining!

The room service tray (page 236) as well as the bed tray stand out due to the precious walnut wood, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that, even with soft mattresses, a comfortable sitting beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

This service tray with integrated separations is perfectly suitable for the service of small dishes at the pool, the beach or in the room. The major compartment has been designed for plates with a max. diameter of up to 29 cm, the lateral separation offers sufficient space for cutlery and napkin. Also insertion bowls with a max. width of 7.5 cm will find space and thus can be used for dips, salad and other side dishes. You will find a selection of suitable inserts on page 266. The trays are equipped with integrated grip holes and stackable. Finger joints at the corners, non-skid rubber feet and a food-safe sealing of the solid walnut wood fulfill the high-quality standards, which are valid for all items of the "Solid" range.

# "Solid" – Wood in its most beautiful shape

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in daily use. Please note the enclosed care instructions, not dishwasher-safe, do not immerse in water!

## Delicacies in delicate setting!

Due to the comprehensive range of accessories, the "Solid" presentation box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid made of brown-tinted glass puts the presented goods in the limelight. Apart from an insert with round cavities for nine truffles/chocolates and a flat plate that can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules. The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. No matter if it is an assortment of coffee specialities or various delicacies of the pâtisserie, the presentation box by Zieher provides the perfect setting for many purposes.

## The most exquisite chocolates/truffles in an exclusive ambiance

Finest creations of the pâtisserie have to be presented in a worthy frame!

### Marco D'Andrea:

"In search of the perfect way to present my chocolates/truffles and after receiving manifold inspiration from colleagues, I have asked a carpenter of my acquaintances to manufacture some first prototypes. It was important to me that the box could be used to present jewellery and diamonds as well.

The round deepenings in the box are specifically matched, that even if the box is inclined, the truffles will not roll out. Chocolates/truffles with a diameter ranging from 22 to 28 mm fit easily into the deepenings. The dark wood of the walnut tree gives the box a fine and modern look. The brown tinted glass reveals the secrets hidden inside the box only once it is given a very close look. The glass can be inserted vertically into the back part of the box or can be slid in under the box. Once closed, anything inside the box can be stored hygienically. The narrow, sidelong compartment in each box can be used individually. Besides placing a tong or other serving cutlery, it can also be used for the presentation of more chocolates or petit fours."

Idea and design for these presentation boxes "Solid" for truffles and filled chocolates are from Marco D'Andrea, "Junger Wilder 2012" and proclaimed "Pâtissier of the year 2014" during the "Leaders of the Year Award" convention (powered by ROLLING PIN). His first cookbook "Modern TeaTime" was published by Südwest Verlag in autumn 2021.

Further awards:

"Pâtissier of the year 2019" - Rolling Pin

"Pâtissier of the year 2020" - Gault Millau

"Pâtisserie team of the year 2020" - Schlemmer Atlas

The bread baskets made of solid walnut wood surprise with their exceptional design and their highly sophisticated handcraft. Designing these bowls, the Milanese designer Itamar Harari did not only think of serving bread, but also of the typical Italian Grissini. Recesses at both ends are especially suitable for those. A selection of fruit in the hotel room also receives much attention if stylishly presented in these extraordinary bowls made of beautiful wood.

NEW

The "Falcon" etagere - as most stainless steel items - can be refined by using the PVD process. Prices, minimum order quantities and delivery times upon request.

More buffet platters made of laminated plastic or glass are available as of page 52.

## “Falcon” – really detached!

This etagere, inspired by the elegance of a falcon, is giving wings to the creativity at the buffet and on the table. A single one can bear up to three plates on it's wings or when used as a duo, also fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters. As a high-tea stand, the etagere carries plain white coup

plates or matt-black plates with a slate-like structure, which fit exactly into the slots of the wings. The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated handrails facilitate the service. This majestic creature is sitting on a stylised branch, which also provides a firm stand.

**NEW** "Table-Tree" Pin

The trees can also be used on the buffet and are a nice addition to the larger exemplars of the "Flower-Tree" family. These are available in two versions and offer with up to 72 cm high, 13 or 25 levels for the presentation of culinary delights.

The cloche (item 4852) and the suitable saucer made of walnut (item 4734.03) are available on page 179.

**"Table-Tree" - Tempting variety on the buffet**

For the presentation of filigree delicacies in the smallest of spaces, the "Table-Trees" from Zieher offer numerous possibilities for a stylish staging.

A selection of fruit, chocolates or patisserie can be presented on the six organically shaped petals of the "Table-Tree" Flower.

For surprising moments, the "Table-Tree" Pin offers the possibility of presenting finger food or small snacks on six skewers at different heights. Melon with ham, dates wrapped in bacon or tastefully filled parmesan baskets and edible flowers find an attractive place on the elegant branches. Each delicacy is held securely by an artfully shaped spiral and prevented from slipping.

The 30 cm high "Table-Trees" are made entirely of stainless steel by hand and polished to a high gloss. The solid base forms the basis of these filigree products and ensures a secure stand.

# "Flex-Tree" & "Flower-Tree"

## A tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, petit-fours and other delicacies.

The "Flex-Tree" enthuses by its versatility! It can be equipped with various miniatures. You can find a small selection and all information on these etageres on pages 96 and 97.

The leaf shape of the "Flower-Tree" is based on the already existing plateau plates and "Flower-Tower" etageres (page 99 and 100). Especially on the buffet, this opens up the option to arrange installations diversified but yet harmonious and variable.

**Floral shapes in a steely gloss**

Seemingly organic shapes in an interplay with the gloss and reflections of hammered and polished stainless steel make up the special charm of this product line. Two etageres as well as plateau plates in different heights (page 100) allow a visually harmonious yet flexible and diversified presentation of appetizers or desserts on the buffet. But also finger food, petit-fours, elaborately decorated cup cakes or a selection of pralines in the guest room find a convenient stage on these products. The ice cream/sorbet cups and petit-fours stands in various sizes make a nice complement and individually stage appetizers or a dessert.

The formal base for all products is a slightly arched and kidney-shaped miniature plate. On three levels, the buffet etagere combines seven small plates each to a presentation platform of floral appearance and offers space to present up to 21 delicacies in a compact and stylish way. The single levels are supported by a filigree trestle made of massive stainless steel, which in shape and construction, deliberately readopts the design of other Zieher etageres. So nothing gets in the way of a harmonic combination of the different product lines.

The table etagere consists of one level only and is therefore perfectly suitable for the restaurant service to present intermediate courses, antipasti or dessert variations. This product is the ideal choice, even as a stylish storage dish for different types of fruit or accessories of daily use.

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. Black silicone rings keep inserted porcelain in position and prevent annoying clattering.

A very special aesthetic setup can be arranged by using a combination of several etageres along with the biggest plates of the "DressCoat" series (page 156). In connection with the almost invisible tier stand, the plateau plates appear amazingly airy and playful by their floating look-and-feel. A buffet presentation with an elegant vibrancy caused by the drapery of the "DressCoat" plates - that's where it comes into its own! Even in the hotel room, the etageres can be positioned in an eye-catching way. Equipped with "DressCoat" or other tableware, small snacks, a selection of fruit or a sweet welcoming treat can be staged in an appealing way. All information about this etagere are available on page 94.

More items of the "DressCoat" series are available on page 156.

### Please note:

We recommend the use of large plates on the lower level only

## Elegantly served and presented in style - classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three levels and in two sizes. The classic mini format etageres effectively present petit fours, desserts, chocolates or other delicacies. The larger version is ideal for scones and jam during Five O'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table.

# "Fakir"

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.

An interesting add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

Candle holders  
Wind lights

# "Reef"

For tealights or candles up to a height of 10 cm and a diameter of 7 cm.

The wind light fascinates by reflections of the candlelight in the silvery metal and the dancing shadows of the slender structures. A removable cylinder made of heat resistant glass protects the flame from wind and thus allows the usage in the garden and on the terrace.

Since medieval times, pewter has been used primarily for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularisation of porcelain. Since then the usage of pewter has shifted mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

At first glance the golden branches, strapped to a bundle, are reminiscent of a besom of a different kind. With candlelight, this extraordinary lighting object creates fascinating effects and provides for a cosy and comfortable ambience.

The filigree rods, visually appealing like thin branches, are made of brass and manufactured piece by piece in traditional sand casting. Afterwards they are soldered onto a solid baseplate with an elevated rim. This baseplate avoids the leakage of wax and protects the table surface from the heat.

Additionally it forms the frame for a removable cylinder, made of heat resistant glass, which by way of its satined surface, intensifies the mood of the light and protects the flame from wind at the same time.

The LED-candles, in combination with different fitting Zieher tealight holders, turn every table into a homelike place for romantic hours.

The power supplies, which are available separately, optionally with EU-, UK- or US-plug, guarantee a worldwide operation of the LED set. Due to the induction charging mechanism, the LED-candles do not have any electrical contacts. This feature, as well as their water resistance (not waterproof), make them ideal for outdoor use.

Each tealight candle is equipped with a yellow shining LED and by skilfully switching between bright and dark, it achieves a deceptively real candle flickering effect. The rechargeable battery, which is integrated in the LED-candle, assures a lighting time of 20 hours with a charging time of about

8-9 hours and a lifetime of more than 500 charging cycles (this equates about 10.000 operating hours).

The induction charging base, which is included in the set (item 8130), allows the charging of up to 12 LED-candles at the same time. Another plus is the integrated plug connection which allows to connect up to 4 charging bases to one single power supply. This enables the charging of up to 48 LED-candles with one electrical socket at the same time.

One set (item 8130) includes 12 LED-candles and 1 induction charging base. The respective power supply (item 8132.EU/UK/US) needs to be ordered separately.

**Bring the romantic atmosphere of candles to your own table - via modern LED technology!**
