item	l x w x h in cm
4578	39x30.5x8.5

"Bento Box" - flexible mobility

Serving guests at the pool, beach or on the terrace is often associated with longer walking distances for service staff. The "Bento Box" from Zieher has been designed especially for these requirements – all components are stackable. This way, they guarantee a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time.

Matt black melamine, modern design and subtle contrasts created by different surface structures, form the perfect setting for individual creations and popular classics such as burgers, club sandwiches or salads.

The box is divided into a main compartment for plates up to a diameter of 28 cm and a narrow side compartment for cutlery and napkin or miniatures made of glass and porcelain.

Optionally available inserts in the same design create additional space for side dishes, sauces or dips, when placed above the cutlery compartment. Up to four of these boxes can be placed in a bento box if required, and, with a correspondingly flat content of the main compartment, create a second level for even more flexibility.

The versatility of the individual components also becomes evident in the cover, which has decorative ventilation slots to dissipate steam generated by hot food. This lid can also be used as a tray, whose less finely textured inside has an anti-slip effect.

Box, insert box and lid are sold separately and can be combined as desired. This allows the restaurateur the adaption to his individual needs and helps to optimise additional purchases.

Melamine!

- Dishwasher-safe
- Food-safe
- Odourless
- Easy-care
- Modern design with matt-black surface

Real added value is provided by different boxes made from the same material. They are available as an insert for the bento box (page 129) and as a cutlery box in two sizes. In addition, three smaller variants have been developed, paying particular attention to the greatest possible compatibility with the trays. The boxes can be arranged in a variety of combinations on all melamine trays and thus offer enormous potential for a use at the Flying Buffet, in catering, at the bar or at the breakfast buffet. A selection of suitable combinations is available on the following pages.

The sturdy containers can also be used as plain elevations for platters and trays. Without additional efforts in procuring material, it is possible to arrange varied buffet presentations quickly and easily. Additionally available are different versions with three round or oval cavities. A big selection of suitable inserts made of glass or porcelain is available on page 268 and 269.

The spoon rest made of melamine is available on page 134, suitable spoons and skewers on pages 140 and 141.

Please note:

Items made of melamine are not to be used for cooking in microwave and combi steam oven!

Robust and elegant - melamine!

The advantages of melamine, such as dishwasher-resistance and food-safety, are particularly evident in daily catering use.

The matt black surface of the Zieher melamine articles generates a superb contrast to glass and porcelain and impresses by its pleasant haptics.

Modern design and the simple language of form of the trays, which are available in common GN formats, make up a pleasant addition to the articles of the "Modul" series (page 140/141). The bridges and spoon rests (page 138) can be used on all trays, non-skid rubber feet on the bottom side facilitate the service enormously.

The cutlery/napkin box for the table is available on page 241

Further trays made of walnut are available on pages 110 to 123.

"Modul" – walnut

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in everyday use.

The party spoon items 1938... are available on page 140.

4767.24	12x12x24	2 pcs

Please note:

Items made of walnut wood are not dishwasher-safe, do not immerse in water!

"Modul" is a flexible product ready for "Flying Buffet" service - and therefore ideally suited for use in the catering area. The slim, oblong format of the base tray, which is available in three sizes, renders the often cumbersome service at crowded standing receptions barrier-free and uncomplicated. The trays can be variably fitted with glass or porcelain parts, a bridge for glasses or a spoon bench for 4 spoons. When using two spoon benches, 4 long skewers can be placed safely on top. The trays can be

variably fitted with glass or porcelain parts, a bridge for glasses or a spoon bench for 4 spoons. When using two spoon benches, 4 long skewers can be placed safely on top. Every single piece has been specially developed for this catering system. Trays, bridge and spoon rest are available in 2 variations: The series "Modul" is manufactured from solid walnut wood and from melamine in a modern matt-black design (pages 130 131, 138 and 139). Suitable miniatures made of china and glass (pages 140 to 142) can be fitted to all trays! Shapely anti-slip mats made of silicone (page 143) facilitate catering to a great extent.

"Modul" – melamine

The advantages of melamine are manifold. It is dishwasher-safe and food-safe, which becomes evident in daily catering use! The smallest tray is 53 cm long and is therefore partially compatible with existing GN-systems. All trays are stackable.

Besides the merely technical properties, the flat black trays differ from the variant made of walnut by their modest design and modern appearance.

base tray "Modul"

Non-slip covers in matt black: Classy look - great benefit!

The matt black look and velvety texture of these mats create an interesting contrast when used in connection with the trays made of walnut. In combination with the "Modul" melamine trays they become almost invisible.

The mats made of food-safe silicone are extremely skid-proof and facilitate the serving considerably. No clattering, no shifting of porcelain bothers guests and staff!

To clean the mats, please use a moist cloth with some detergent and wipe off with a cloth and clear water.

Non-slip coasters for single miniatures are available on page 214.

The mats are made to match the size of the walnut trays Art.-Nr. 4721, 4722 and 4723. With a sharp cutter knife, they can be adapted to the size of the melamine trays Art.-Nr. 4581, 4582 and 4583. We recommend to use a cutting mat as well as a metal ruler.

non-slip mat

silicone, black, food-safe, temperature resistant (-40 °C - +230 °C), for walnut trays "Modul" items 4721, 4722 and 4723, can be cut to fit melamine trays "Modul" items 4581, 4582 and 4583

VENTA by Büchin Design has developed an elegant buffet furniture programme for the high demands of the hotel industry and for exclusive events. It is equipped with a number of technical features to keep food hot or cold.

The tables are equipped with castors and can therefore be used very flexible in different rooms. They can be stored under each other or dismantled and stored in trolleys in just a few simple steps.

The modular buffet table system STAGE can be assembled and disassembled in just a few easy steps, without the need for any tools.

All four tables fit in one trolley. The individual parts are safely stored, each part has its own place.

MODULAR BUFFET SYSTEM

- Adjustable heights
- Movable castors
- Nesting storage
- Trolley Transport System

total buffet length: 536 cm

92 cm

all tables in a row / adjusted at the same height

Zieher and VENTA cooperate in the area of buffet presentation. The Zieher table-top buffet elements harmonize excellently with the modular buffet system "STAGE" of the VENTA brand.

All details of VENTA system you will find at: www.ventadesign.com

Making precious materials more precious – whether it is ...

"platin"

"gold"

"bronze"

... glass or china: nearly everything is possible!

Large-scale coatings on glass and china in precious colours enrich every dining table and create luxurious accents!

In order to achieve this decorative style, available in gold, platinum and bronze, the precious metals are burnt onto the varnish at more than 880 °C and as a result, the coating is dishwasher-safe. Cloches made of glass can now be used for serving warm dishes as well and condensing water remains invisible to a great part.

By using resistant precious alloys, we obtain a connection to the varnish, which is strong enough for the products to become dishwasher-safe. Test series by the "Institut für Werkstoffe Heraeus Precious Metals GmbH & Co. KG" have proven the dishwasher resistance of the décor. Partially, the possibilities of coating are dependent on the form of the product. Requests are being tested in each case according to their feasibility.

The bronze colour is a special case since it presents itself in numerous interesting shades of colour. Depending on the shape of the product, especially when looking at immersions, the colours can vary from gold-bronze shades to blue-violet ones, which blend into each other and create unique effects. Specific patterns/orders are usually executed quickly. Please do not hesitate to send us your special request

Satin-coated logos applied before the refinement still remain visible.

colour gradient "bronze"

All information of refining stainless steel are available on page 301.

Please note:

Products are dishwasher-resistant. Please take note of the instructions given by dishwasher producers and detergents to avoid damage.

Since the coatings are made of precious metals, the use in microwaves is not recommended under any circumstances
