Buffet

"Glow"

"Glow" – reframing the buffet!

Filigree displays and frames with integrated lighting form the basis of the "Glow" system.

The matt black coating of these slim but still extremely sturdy lighting objects remains discreetly in the background and leaves the presentation of dishes to the warm and glare-free light.

"Glow" is a flexible system that creates unmatched buffet stagings. The filigree construction not only allows food and beverages to be presented on the displays, their inner side also creates enough space to effectively present delicacies in the right light.

All elements can be used lying or upright and create presentation levels at different heights – the basis for varied and appealing buffet arrangements. Two connecting boards made of bent sheet metal can be attached as desired and thus enable the flexible construction of several elements – even across corners. Matching buffet platters made of glass or laminated plastic, as well as trays made of melamine, complete the system.

Zieher buffet systems have been inspiring with innovative lighting concepts for many years. In "Glow", this is now firmly integrated for the first time. The resulting subtle look of these lighting objects creates completely new facets of an atmospheric buffet ambience.

Components of the system:

- The illuminated cuboids offer the possibility of operating up to three elements on one power supply, due to the two integrated connection sockets.

- Illuminated frames can be placed horizontally and thus enable the effective lighting of translucent buffet platters of all kinds. When set up, they fit into the height grid of the buffet cuboids and thus function as a space-saving support for attached connecting boards.

- The connecting boards are made of powder-coated sheet metal and allow a two-sided use. They can simply be hung between the cuboids and frames, creating additional presentation levels and areas.

- Precisely fitting glass platters of various types and platters made of black laminated plastic make it possible to quickly and easily close the top of the illuminated cuboids. Various melamine trays from the range can also be used on some of the cubes. In the lying position, there is a large selection of suitable glass platters from the Zieher range available (50 x 50cm / 50 x 42cm / 42 x 42cm). These buffet platters are available on pages 50 to 57. If the cuboids are positioned upright, they can be covered with laminated plastic platters.

- Rubberised magnetic buffers ensure the non-slip and noiseless support of all platters and trays. These are available as accessories and can be placed anywhere on the displays and frames. Furthermore, they create the necessary distance in order to place glass or laminated plastic platters in spite of the attached connecting boards.
"Glow"
Accessories LED lighting:

- The power supplies are available with EU, US and UK plugs. The power of the supplies is sufficient to connect up to three cuboids or frames. Since each cuboid has two connection options, they can be strung together without any problems.

- As they only have one connection option, the two frames form the end of the chain. The energy-efficient LED lighting in warm white colour is operated with harmless 24 volts.

- Connecting cables with angled plugs are available in two lengths and help to keep the number of cables required as low as possible in numerous setups.

- Shapely and reusable cable holders made of durable silicone help to lay and fix power- and connecting cables inconspicuously or to bundle several cables.

ZIEHER **11**

"Textura"

The cloches and porcelain bowls and plates of the series "Cuspis" are available on page 152 and 176.
In order to grant a harmonic all-over illumination while using stacked cuboids, it is recommended to use one LED lamp per item. For usage of bigger buffet platters, we suggest to employ the elements with 30 cm edge length. Due to the flexible material, we recommend stacking a maximum of two cubes on top of each other, when the system is equipped with heavy platters or bowls.

8232.30	approx. 30x30x10.5

"Textura" – indestructible, innovative, exclusive!

The exclusive cuboids of the "Textura" series are exceedingly interesting, even at a second glance, due to their awesome structure. They consist of thin polyethylene filaments, which are convoluted intricately and fused together. This awards them a flexible but nevertheless very stable texture. The true potential of this innovative material is only disclosed in connection with light. The light-conducting properties of the filigree filaments manifest effectively when using the rechargeable Zieher LED light (page 48/49), which fits exactly into the cut-outs on the bottom side of the displays. The "Textura" buffet cuboids are available in two sizes which, when used separately or stacked on top of each other, create different presentation levels on the buffet. Buffet platters and trays are reliably kept in position due to the non-slip features of this material. "Textura" lives up to the high demands of gastronomy and catering in numerous ways. The displays are indestructible and very light, washable and dirt-repellent. The countless interspaces create a light-flooded meshwork, which dries very quickly and is therefore resistant to humidity and mold. Also the raw material itself is something to be proud of. Polyethylene can repeatedly be 100% recycled without losing its outstanding characteristics. It is physiologically non-hazarous, odorless, tasteless and resistant to a variety of acids, oils and grease.

All information about the cooling elements "Chiller Base" can be found on pages 42 and 43

"Somnia"

At first glance the golden branches, carefully strapped to a bundle, are reminiscent of a besom and braided objects of a different kind. The buffet displays and luminaires of the "Somnia" series are assembled from organically shaped, filigree rods which are made of solid brass in traditional sand casting. These single components, reminiscent of brittle branches, are afterwards melded in complex handicraft to impressive unique pieces. The matt-golden surface of the "Somnia" series harmonises elegantly with the grey glass of the handblown bowls, which have been specially adapted to the shape of the small stands. The two bigger buffet raisers form a precious basis for bowls and buffet platters of all kind. Optionally available black rubber caps can be fixed if required to improve the slip resistance and to protect the sensitive surface of furniture. The smallest version of these little pieces of art also impresses at a set table. An amuse-bouche, bedded on a nest of golden branches, will be treasured by the guests for a long time.

The wind light of the "Somnia" series is equipped with a solid base plate with an elevated rim. This base avoids a leakage of wax and protects the table surface from heat. Furthermore, it forms the frame for a removable cylinder, made of heat resistant glass, which by way of its satined surface, intensifies the mood of light and protects the flame from wind at the same time. With candlelight, this extraordinary lighting object creates fascinating effects and provides for a cosy and comfortable ambience.

8320.31R	49.5x49.5x31	34x34

Industrial charme

The variant of raw steel with a rusted and sealed surface inspires by the charm of corroded metal and perfectly matches the industrial style of modern architecture! Low weight, space-saving storage due to its stackability, easy handling and quick installation are just a few advantages of the "Crossline" series. The neutral colouring of the stands can be combined harmoniously with many different materials. Thanks to the large variety of Zieher buffet platters, the arrangement of buffets can be redesigned again and again.

Hinged beams at the upper side of the trestle can be adjusted individually to the shape of bowls and platters.

For buffet bowl item 5176 and platters of 80 cm x 40 cm and bigger.

More dark grey bowls are
available on pages 78 to 83.

Filigree understatement!

The filigree displays of the "Crossline" series feature an enormous stability due to
their cleverly elaborated statics. These elements, which have been deliberately
designed to have a plain and restrained appearance, unobtrusively blend into every
ambience.

The rectangular base has been constructed especially for a presentation bowl
made of dark grey glass, which impresses by its length of 130 cm. Hinged beams at
the upper side of the trestle can be adjusted to the shape of the bowl individually.
Hence also Zieher buffet platters of 80 cm x 40 cm and bigger can be installed.
The supports are felt-covered, which minimises disturbing noise, evens out smaller
asperities and provides for slip-resistance. Two more versions in square shape are
constructed identically and are, for example, suitable for buffet platters in sizes
42 cm x 42 cm or 50 cm x 50 cm.

All trestles are made of galvanised steel and afterwards coated with a robust and
scratch-proof powder-coating in a classy matt black. Therefore the stands are also
suitable for outdoor areas.

For buffet bowl item 5704

"Skyline" – Manhattan-Feeling on the buffet

"Skyline", Zieher's buffet system, allows a maximum of flexibility for the most exclusive buffet presentations. Different heights enable you to install big buffet platters on the one hand - on the other hand, they can be stabilised by insertion into the corresponding serration. The square columns are made of highly-polished stainless steel and due to the standardised serration heights, they can be combined with the "Squareline" (pages 24 to 26) and "Curve" series (page 27).

The spectacular look that brings the silhouette of skyscrapers to mind, is available in a highly-polished version and for an intensified effect, also in black and white colouring (gold and copper on request!). The optionally available Zieher LED-lights are a perfect addition to the system and come in 2 versions: cabled and rechargeable (pages 48 and 49). In combination with light-diffusing tubes (page 48), they provide a perfect illumination of the system in various colours.

"Skyline" – the original!

The buffet platters are available on page 50.

"Skyline" made by Zieher – Compare the original to copies of inferior quality!

Reasons to stick with the original:

- Different versions: polished, matt black and white (golden and copper on request)
- Highest Zieher quality and perfect accuracy in manufacturing
- Compatibility with other Zieher systems
- 100 % fitting illumination
- Massive stainless steel 18/10
- Design by Zieher in 2009

Cabled and rechargeable, battery-powered
LED-lights are available on pages 48 and 49.

The "Skyline" buffet system allows a maximum of flexibility for the most exclusive buffet presentations.

Due to the same serration heights, the "Skyline" system is combinable with our "Squareline" (pages 24 to 26) and "Curve" systems (page 27). The different adaptors of the "Squareline" system may equally be used with the "Skyline" stands (exception: columns with 58 cm height).

Some exemplary displays can be seen here:

"Skyline" black, connector pieces acrylic glass satined (page 26), acrylic glass tubes (page 48), rechargeable LED-lights (page 49).

"Skyline" highly polished, connector pieces acrylic glass black (page 26), platters black glass (page 54), acrylic glass tubes (page 48), rechargeable LED-lights (page 49).

"Squareline"

"Squareline" black, acrylic connector pieces satined (page 26),
"Lightning Buffet" tubes (page 48), rechargeable LED-lights (page 49).

The rechargeable LED-light (item 8150, optionally available, page 49) offers numerous fixedly pre-installed colours, as well as special programs like colour gradient and flickering-candle-effect. The compatible remote control (item 8151) allows the synchronisation of up to 20 LED-lights at the same time and enables the change of the complete buffet-colouring by just pressing one button!

Alternatively and especially for fixed buffet installations, we recommend the use of the Zieher LED-lights with cable (item 8104, page 48).

With this item, 5 lighting colours can be set by using stick-on colour-filters.

The connector pieces feature slots, so that the cables can be laid invisibly through the columns of the "Lightning Buffet". To do this, the detachable lids of the acrylic tubes have to be removed. If cabled LED-lights are used, it is recommended to lay down all components of a "Squareline"- tower next to each other on the table to facilitate the installation of the cables.

"Squareline" black, acrylic connector pieces black (page 26),
glass platters black (page 54), glass steps black (page 58).

Please note:

To illuminate the system, you will need one LED-light and one acrylic column in the fitting size (12 resp. 24 cm) for each "Squareline" stand. The acrylic columns are available in sets of 3 pieces (items 8120...) and can be found on page 48, the information on our LED-lights can be found on pages 48 and 49.
"Squareline" copper (on request), acrylic connector pieces satined (page 24), glass platters white (page 55), "Lightning Buffet" tubes (page 48), rechargeable LED-lights (page 49).

The buffet system with 1000 faces!

Our classic "Skyline" has been changed and advanced to become "Squareline", which now offers several new features apart from its pure design.

The stainless steel displays are available in two heights. Three versions - highly polished, matt black and white (golden and copper on request), grant the columns completely different effects! The "Squareline" towers can be stacked on top of each other by using connector pieces, which are available in two different versions. A 90° rotated arrangement of the stands increases the creative leeway tremendously and permits a buffet set-up at an angle.

Besides the technical aspect, the connector pieces are mainly a decorative element.

They are available in glossy black or satin light-diffusing acrylic. In connection with the various versions of displays and buffet platters, countless possibilities for the creation of a buffet arise.

Optionally, "Squareline" offers the possibility of a 100 % integration of our "Lightning Buffet" – the full height of the columns will be illuminated from the inside. When using the satined connector pieces, their light-diffusing effect even enhances the spectacular sight. The system is based on the buffet classic "Skyline" (pages 18 to 21), both in construction and in form. So both systems can be combined quite easily.

Just let your imagination run wild!

"Squareline" polished, acrylic connector pieces satined (page 26), platters transparent glass (page 56), buffet platter (page 56) and glass steps transparent (page 58), "Lightning Buffet" tubes (page 48), rechargeable LED-lights (page 49).

Flexibility with a concept

"Curve" is made of 3 mm strong, galvanised steel with a high grade powder coating.

This guarantees great stability and corrosion-resistance. The gaps between the bars were expressly chosen by the Milanese designer Itamar Harari to make the raisers completely compatible with the systems "Skyline" (pages 18 to 23) and "Squareline" (pages 24 to 26). The attractively priced "Curve" is therefore not only suitable as a starter version,

but also as an optimal extension of existing systems. During the development of "Curve", special attention was given to the mobile usage. Thus all components can be stored in an extremely space-saving way. Simple and swift to install, "Curve" is the perfect equipment for outdoor areas, events and catering.

Our complete range of buffet platters is available on pages 50 bis 58.

The "Zieher-System"

Zieher offers innumerable possibilities to present food optically appealing and highly flexible. When developing new buffet products, it is most important for Zieher to guarantee compatibility among the individual systems.

The "Zieher-System" with its different heights of 12, 24 and 36 cm or 8, 16, and 24 cm leads to a perfect composition of different presentation levels on the buffet, thus offering more flexibility in its arrangement. A wide range of buffet platters and trays of hardened glass, natural slate and laminated plastic in various styles is available on pages 51 to 58.

Thanks to the boundless possibilities in varying materials and designs, every buffet can easily be adapted to any accommodation. The system becomes part of the whole interior and assimilates harmonically into any ambiance.

"Konkret!" – distinct design for highest flexibility!

Plain lines, neutral shapes and two different colour variations put your food presentation into focus and offer a maximum of flexibility, while at the same time, using the available space at your buffet most effectively. Maximum reduced shapes in combination with the rough look of concrete - "Konkret!" blends in particularly well with modern architecture. "Less is more" is the motto! Both variants of the displays (light grey and dark grey) are available in eight sizes, a dark grey XXL bowl impresses with huge size paired with light weight.

The XXL bowl "Konkret!" is available on page 31.

The displays consist of a mixture of fibreglass and stone and therefore offer the deceptively genuine optics of concrete combined with low weight and high stability, which greatly facilitates handling. The puristic flair of that system will be intensified by using glass platters. Those and other variations made of laminated plastic and slate are available on pages 50 to 58.

"Konkret!"

The XXL bowl in dark-grey concrete look inspires by its enormous size and the low weight. In empty state, it can easily be carried by one person. A fili-gree, but extremely solid stand made of powder-coated steel forms the perfect basis. A round glass plate separates ice from melting water and at the same time creates space for the Zieher rechargeable LED-light (page 49), which allows the illumination of the ice in striking colours. No matter if placed on the buffet table or on the stand - this bowl will leave a permanent impression on your guests!

safe, open underside, with notch for cable on the back.
Can be used on both sides!

item	l x w x h in cm
7005.16	53x32.5x16

Please note:

Isolated air inclusions in the material as
well as slight colour deviations cannot be
avoided due to production technology.

The buffet system "Neo" is made of anthracite coloured resin. The matt surfaces and softly rounded edges of these translucent cuboids appear unobtrusive and modern. "Neo" unfolds its true potential if the columns are effectively illuminated.

The optionally available LED-lights (pages 48 and 49), alternatively rechargeable or cabled, are the ideal completion to put "Neo" into its true light. Thanks to the battery-operated LED lights, which are waterproof to a depth of 1 metre and can be remote-controlled, even the ice in the ice containers can be illuminated from below – a truly fascinating sight. The large selection of different light colours enables spectacular effects!

"V12" – Carbon

buffet display "V12"

8205.12	24x24x12
8205.24	24x24x24
8205.36	24x24x36

"V12" combines modern and reduced forms with the precious material carbon. The elegant and three-dimensional look of the carbon fibre paired with maximum stability – "V12" adds high-tech to the buffet!

In connection with the huge Zieher assortment of buffet platters, "V12" provides a maximum in flexibility and best usage of buffet surfaces. Six different sizes of the "V12" displays offer a lot of possibilities for the individual composition of your buffet.

The standard heights of the carbon buffet displays of 12, 24 and 36 cm resp. 8, 16 and 24 cm permit an easy and simple combination with other Zieher systems. For an overview, please consult page 28.

"Classy"

The buffet displays "Classy" are made of translucent material and impress by their fascinating texture which is reminiscent of Italian marble or alabaster. The precise workmanship of the cubes as well as the silk-matt surface increase the fancy impression even more.

"Classy" is available in the Zieher system heights of 8, 16 and 24 cm and can therefore be combined in various ways. The open bottom side of the large displays allows an effective illumination by the optionally available LED-lights. With their different light colours, the LED-lights emphasise the appealing look and the interesting marbling of the material.

The small cube has no open underside and thus cannot be illuminated. The advantage of this construction lies in its high functionality. Its dimensions of 24 cm x 16 cm x 8 cm enable a positioning in 3 heights - a clever supplement to the squarish displays.

It is possible to stage "Classy" with or without lighting, strikingly eye-catching or quite discreetly. Whether unobtrusive and modern or playful and opulent - "Classy" fits perfectly into any ambience!

The baskets of the "Reef" series are available on pages 70 to 73.

Closed on all sides, cannot be illuminated

8230.16	38x38x16
8230.24	38x38x24

"Luxor"

The shimmering displays of the "Luxor" series enchant by the colour play of golden shades in variable nuances. This effect is created by high-quality shell imitations, which are arranged fan-shaped on a fibreglass base in sophisticated handcrafting. The honed and highly polished, multiple sealing with resin (Polyresin), emphasises the pattern and the pearlescent shine of the gold-coloured discs and provides the surface with a striking depth effect.

The buffet cuboids are available in heights of 8, 16 and 24 cm and are therefore compatible with many other displays of the Zieher system. The 38 cm x 38 cm large bearing surface can be used directly for presentation purposes or as a basis for buffet platters or stairs of various kinds.

"Luxor" adds a touch of extravagance to both the modern and classic ambiance, setting extraordinary accents in any environment.

Buffet bowls made of grey glass are available on pages 78 to 83.

The glass tubes of the "Flex" series are available on page 212.

8221.16	38x38x16
8221.24	38x38x24

"Solid"

The buffet displays of the "Solid" series are, as all the other items of this series, made of solid walnut wood. They may be used as containers for cutlery or French bread, but they are particularly suitable for the elevation of the "Modul" walnut trays (page 136) or other buffet platters.

The filigree finger joints at the corners testify to precise craftsmanship of the highest quality and guarantee perfect stability!

The displays made of solid wood are visually appealing and fit perfectly into the existing buffet systems "Solid" and "Mercato" (pages 110 to 125).

Please note the care instructions!
Not dishwasher-safe, do not immerse in water!

More displays and buffet systems made of walnut are available from page 110 on.
The indestructibility of laminated platters meets the advantages of plug-in systems. The plain displays are loosely stuck together, which ensures a quick and uncomplicated setup as well as a space-saving storage of the single components. Thereby "StiXXX" meets in particular the hard requirements of daily use in the catering business.

The heights of the puristic displays match perfectly with other series of the Zieher-System, by what creates numerous possible variants. Positioned as an "X" results in further presentation possibilities with a particularly slight and filigree alignment. The Zieher buffet platters and displays made of laminate are usable on both sides by the double-sided decoration. This exceedingly robust raw material is break- and scratch-proof, antistatic and dishwasher-safe and thus offers numerous advantages compared to other raw materials.

8080.16	7	16	2 pcs
8080.24	7	24	2 pcs

The card holder made of stainless steel is available on page 106..

"Basic" is the simple and flexible solution to create different presentation levels. The high-quality columns made of matt brushed stainless steel (18/10) are a fitting base for buffet platters made of glass and other materials. The columns are fitted with felt pads on the top to protect the surface of glass platters and to level out any unevenness of the tables. The feet with 7 cm in diameter guarantee firm standing.

The unobtrusive and unadorned design of the buffet stands puts food and drinks into the limelight.

"Basic" is available in four heights and can be combined with several Zieher buffet systems (page 28). The carbon buffet stands "V12" presented here can be found on pages 34 and 35.

Please note:

We do not recommend the use of "Basic" in combination with buffet platters made of natural slate. Due to the slightly varying thickness of natural slate platters, this combination might shake.

"Basic" & "V12" Carbon

"Chiller-Base"

Cooling pillows

The cooling pads have been tailor-made for the melamine base to provide for an optimal cooling surface by the perfect fit. The pads can optionally be flipped, depending on whether the black top or the white bottom fits into the overall picture more harmoniously. So, they are applicable inconspicuously, even with slightly translucent or satined buffet platters.

The attractive contrast of top and bottom can also be used on the laid table to deliberately set accents. Serving chilled food becomes a visual highlight. The high-quality case made of black or white nylon fabric looks very noble and yet discreet. It is filled with gel, which remains malleable, even when frozen and thus allows an adaptation to a wide variety of tableware used.

The porcelain bowl "Cave" is available on page 163.

Buffet platters made of glass in the formats 42 cm x 42 cm and 50 cm x 50 cm can be found on pages 54 to 57.

Precise recesses on the underside facilitate positioning

The "Textura" buffet displays are available on page 12 / 13.

"Chiller-Base" – just stay cool!

The cooling elements by Zieher are an elegant and simple solution for a quick and flexible installation of chilled platters. They can be arranged either at different heights by using displays or freely positioned on the buffet table.

The flat bowls are available in matt black and white melamine and have been designed specifically for food whose presentation can be extended significantly by cooling.

The puristic form, the compact height of only 35 mm as well as the restrained colouring allow a stylishly discreet integration into numerous buffet constructions. Tailored recesses on the underside of the trays facilitate symmetrical positioning on most Zieher buffet systems. So a harmonious overall picture can be achieved quickly. Unobtrusive rubber buffers in the corners of the "Chiller-Base" ensure a non-slip and secure fit of laid-up platters in sizes starting from 42 x 42 cm (page 54 - 57).

glow may be limited.

Bringing light into the darkness!

The illuminated buffet stands, in connection with platters made of natural slate, laminated plastic or glass (pages 50 to 57), make every buffet shine in a radiant new light. The innovative LED technology does not radiate any heat and is powered by a harmless voltage. It is characterised by its longevity and its low power consumption. The standard light of the cabled LED is white, but thanks to the coloured plastic covers, the colour scale is enlarged to contain red, yellow, green and blue (page 48).

Alternatively, there is a rechargeable LED-light with several different functions available. Besides a fixed colour range and special programs, its particular feature is a remote control that enables changing colours and programs during use. For a detailed description of this LED-light and its functions, please check out page 49.

The columns made of satined acrylic (page 48) are available in seven sizes and feature a removable cover to enable the insertion of round bowls.

"Squareline", page 24 to 26

"Stablo" page 59 to 63

LED-light with cable, item 8104...

For permanently installed buffets which are not dismantled on a daily basis, it is recommended to use the LED-light with cable item 8104.

The standard light is white; the alternative colours blue, yellow, green and red can be chosen by using the precisely fitting plastic covers items 8105... (available as accessories).

A set consists of 3 lights and the matching power supply, which can be fitted with a total of 6 lights. All cables are white and the power cable of the light has a length of 3 metres, which is enough to stow away adapter and power supply safely and invisibly under the buffet table.

Rechargeable LED-light with radio remote control:

The compact LED-light is controlled by remote control, which allows for a more flexible use of the Zieher "Lightning Buffet" and renders it independent from any power supply and spatial requirement.

This creates a lot of new possibilities for the buffet setup: out in the open, next to the pool or in the middle of the room - without any troublesome cables and controllers that might get into the guests' or the personnel's way. The necessary radio remote control item 8151 (to be ordered separately) rounds off the whole system in regard to function and handling and allows to choose the colouring within a range of up to 15 m without dismantling the buffet first. Due to many different colours and special programs, the buffet will fit into every kind of atmosphere. The lighting colour for the complete buffet can be changed by pressing only one button. Experience the "Lightning Buffet" - no matter where - you will be excited!

Buffet platters and more!

Zieher is offering a wide range of buffet platters made of laminated plastic, several kinds of glass and natural slate. Due to the wide choice of formats and types of materials, there are many possibilities of combinations with Ziehers buffet systems (pages 5 to 48). The offer is being completed by various buffet stairs, trays and bowls (pages 58 to 94).

Buffet platters made of slate!

● Natural slate
● Food-safe sealed/unsealed
● 10 to 15 mm thick
● With rubber feet

Slate is a unique and exceptional natural product. The surfaces of our slate plates have the typical cleavage. Every piece is unique. Small deviations in structure, thickness (10 to 15 mm) and weight of the platters cannot be avoided, as it is in the nature of the product. Also, there could be single inclusions of other minerals and fossils. These exceptional features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid) may damage the surface in case of prolonged contact. Therefore we recommend avoiding any direct contact with edibles.

The charm of transience

Break- and scratch-resistant, anti-static and dishwasher-safe – these features of laminated plastic platters and the resulting advantages are convincing!

The buffet platters made of laminated plastic are available in two neutral versions as well as in an extraordinary variation.

Unplastered brick-lined walls, load-bearing structural elements made of steel beams, exposed concrete and the morbid charms of abandoned factory buildings create the ambience for the rust-coloured decoration "Industry 2.0". This is evocative of weathered steel surfaces, which are marked by decades of corrosion and fits perfectly into the industrial style of modern architecture.

All laminated buffet platters by Zieher have a dark middle layer and can be used on both sides because of their double-coating.

Please note: ⓘ

With these decors, each plate is unique – non of them look alike.

Each piece is unique!

The irregular colouring of the Zieher buffet platters is created by colour pigments, which are manually applied and fused into the glass. The colour is fixed inside the glass and therefore dishwasher-safe and abrasion resistant. Structured underside and rounded edges emphasise the effect of the platters and the individual and interesting shades of grey and intensity of colour create unique patterns in each platter!

Buffet platter made of dark grey glass!

Please note: ⓘ

The glass steps items 5026... are adjusted to the Zieher system and due to their height of 12 resp. 24 cm can easily be combined with many Zieher buffet raisers (page 28).

All large steps are supplied in a sturdy wooden box!

"Stablo" – filigree versatility

The buffet stands made of solid, brightly polished stainless steel impress by their high-quality workmanship and delicate appearance. Bowls and dishes appear almost hovering while slip-proof caps on the feet ensure safe support. The height of the stand (item 8016.01) is adjustable via extensions from 80 cm to 120 cm. Massive and bulky buffet tables become virtually redundant!

The buffet stand with its integrated ring (item 8016.01), allows for the presentation of plates and platters (max. dia. 21 cm on the lower level), but also for the insertion of extravagant wine coolers made of borosilicate glass. The coolers, positioned at an angle, may also be used with the "Stablo" stands in the sizes M and L.

The shape of the cooler corresponds to the already well-known Zieher glass cloches (pages 173 to 176), thicker quality borosilicate glass ensures the necessary stability! Due to its shape, any condensing water on the outside is drained off to the bottom tip. Dripping water can easily be caught by placing a small bowl on the floor or the buffet table. The integration of the optionally available Zieher rechargeable LED-lights creates breathtaking visual effects and puts champagne but also iced food in the limelight!

A three-staged buffet etagere is offering a lot of space for all kinds of food. It can be equipped with numerous trays and plates of the Zieher range. Anti-slip caps avoid annoying noise and ensure the safe grip of the trays

Design: Uwe Kopp, Jörg Stricker

The etagere with suitable trays is available on pages 62 und 63.

Anti-slip sleeves provide a safe positioning of buffet platters.

"Falcon" – really detached!

This etagere, inspired by the elegance of a falcon, is giving wings to the creativity at the buffet. A single one can bear up to three plates on its wings or, when used as a duo, fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters.

As a high-tea stand, the etagere carries plain white coup plates or matt-black plates with a slate-like structure. Those plates fit exactly into the slots of the wings.

The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated handrails facilitate the service. This majestic creature is sitting on a stylised branch, which also provides a firm stand.

Thermo bowls "Shine"

The stainless steel bowls of the "Shine" series are double-walled and therefore have an isolating effect. This helps to prevent water condensation – even at higher temperatures. Cold food stays cold and warm food stays warm longer.

The slim top edge appears elegant and filigree. The accentuated contrast between the highly polished outside and the unobtrusive finish on the inside (fine brushed stainless steel, ivory or taupe coloured) makes that series an eye-catcher. "Shine" is the perfect combination of elegance and subtlety. It is easily changeable to achieve a variation of presentations and it is effective due to its double-walled construction.

Please note: ⓘ

When cleaning the coated bowls (ivory and taupe coloured) in the dishwasher, the coating at the rim might abrade in the course of time. Therefore it is recommended to clean these items by hand.
The "Splash" - effect

Dynamics of movement - solidified to a statue! The bowls of the "Splash" series spread a very special flair by their playful optics. Whether used as fruit bowl in the big, for amuse gueule, culinary delights in the small or as decorative deposit place in all varieties, "Splash" sets a charming course at the table and for interiors. The bowls are made of solid pewter, manually assembled of numerous single components and elaborately refined. Knobbed feet at the bottom side guarantee a safe stand.

The projecting XXL bowl combines filigree structures with impressive dimensions. Made of premium pewter, countless fine ramifications combine to a beautifully designed whole and thus provide necessary stability with low weight at the same time.

This design gives an unobstructed view of the contents of the bowl and forms a precious frame to stage particularly fruit or other delicacies in an extravagant way. The surface of the bowl is polished on the inside, while on the outside it impresses with its coral-like structure.

Large numbers of single parts are casted from premium pewter and subsequently assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork. The products of the "Reef" series are genuine gems of dining culture! Whether there are bowls filled with bread or fruit in the focus of attention, high-quality textiles, held together by extravagant napkin rings emphasising the ambiance, or the delightful shadow play of candlelight, creating an atmospheric ambiance – "Reef" turns any table into a fine dining experience.

In the lobby or at the reception desk, which are both a hotel's hallmark, these impressive bowls guarantee lasting impressions with guests and visitors, especially when decorated with blossoms or flower bouquets.

The outside texture of the bowls differs within the series: whether smoothly rounded (page 71 to 73) or roughly structured with dark, patinated deepenings (page 70) – each variant has its own charm.

Please note:

ⓘ

Since medieval times, pewter has been used primarily for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularity of porcelain. Since then the usage of pewter has shifted mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

"Roots, Matrix & Fakir" – Brass all of a piece!

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination. Opposing in form and shape but still belonging together, the bowls "Roots" and "Matrix" as well as the exceptional displays of the "Fakir" series, add up to a harmonic overall composition.

The bowls "Roots", a tight web of rootlike structures, and "Matrix", strictly geometrically constructed of hexagons, could hardly be more opposing. Especially this aspect makes the combination of the two so interesting. Besides the presentation of bread and fruit on the buffet, these bowls fascinate as sculptures or decorative elements as well. An interesting add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

All items are golden-coloured and partially dark patinated, further discolouration or oxidation is prevented reliably by the food-safe sealing of the golden parts.

"Fakir"

The buffet stands of the "Somnia" series are available on page 14.

Please note:

The items made of brass are suitable for cold/dry food only. Not dishwasher-safe.

"Capiz"

Ivory-coloured clamshells with a nacreous gloss grant these products their special appeal. In combination with crushed ice and the Zieher rechargeable LED-lights, the double-walled bowls produced in mosaic-look create fascinating effects, thus becoming the eye-catcher at the buffet. The double-walled construction provides insulating characteristics. This prevents the formation of condensation on the outside of the bowls to the greatest possible extent.

The rechargeable LED-light item 8150 is available on page 49.

Please note:

Due to the complex production process, small air inclusions in the glass are inevitable.

Each of these high grade bowls is unique and almost completely handcrafted. At this, coloured glass is completely covered with crystal clear glass. This process awards the bowls with top brilliance and an impressive look. The handblown glass blank is modelled manually, whereby unique pieces are created which excite by their organic shape.

This monumental bowl made of dark grey glass arches like a sculpture and melts optically with crushed ice to stage classy seafood or champagne in an opulent way.

In combination with the Zieher rechargeable LEDs, which perfectly accentuate the irregular structure of the glass, the presentation becomes even more dramatic! This effect is further intensified by the optical refraction of the ice.

This impressive bowl with a diameter of 82 cm can be placed free-standing on the floor by using the fitting rack (item 8213). But also right at the buffet table or arranged together with the stands of the "Crossline" series in different heights - these designer pieces know how to impress.

"Cave"

The glass version of the "Cave" bowl is available in two sizes. The soft tinge of this grey glass, which is manufactured in a traditional hand-blowing process, at first glance allows an unobstructed view onto the content of these shapely objects. They offer the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad on a solemnly decorated table. The content of the bowls remains protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance. These unique items also enthuse as a place to keep all kinds of accessories. "Cave" in a smaller version, made of china, is available on page 163.

glass bowl "Cave"

4815.24	approx. 24	approx. 19	approx. 16.5

"Duplex"

The solid coloured grey glass of these unique handblown pieces serves as an unobtrusive background and suitable framework for perfectly arranged dishes. The bowls can be used on both sides. A soft recess is formed when the closed side is up for ambitious dishes. By using it upside down, there will be more capacity, which is ideal e. g. to fill in crushed ice.

Useable on both sides!

The rechargeable LED-light item 8150 is available on page 49.

Please note:

ⓘ

All items shown on this pages are handblown. Therefore it is impossible to avoid variations in glass thickness, colour intensity and weight.

The handblown bowls made of grey-tinted glass are deliberately restrained in their design, yet they have been shaped to exhibit high versatility in their appearance.

The combination of the bowls with the gold-coloured stands of the "Somnia" series (page 14) creates an opulent and extravagant buffet staging, which is fascinating purely by its appearance. The subtle grey tinting of the glass bowls also matches perfectly with the matt black surface of the optionally available silicone rings, which form a non-slip basis and increase stability.

2371.16	16.5	8	approx.1.0
2371.21	21.5	9	approx.2.0

The trays and bowls of the "Artisan" series are fascinating and diversified at the same time. The inside with its perfectly polished surface creates an interesting contrast to the matt outside.

The handcrafted rim impresses by its irregularity and is crowned by a circumferential brass edge. The combination of hammered and plain surfaces, of massive stainless steel and brass, awards this series with that certain something.

"Artisan" is a series of contrast

The plane surface of the trays facilitates the service and prevents unpleasant noise. When used at the buffet, arranged food can be presented in an appealing way and is accentuated by the reflection of the polished surfaces.

Stainless steel - refined!

All information concerning refinement of glass and china are available on pages 146 and 300.

We gladly offer you buffet displays, bread baskets or cruet stands etc. with different surfaces. This option is feasible for almost all products made of stainless steel. Highly polished as well as matt stainless steel can be finished in golden, copper or black colour using the PVD process. Price, minimum order quantity and delivery time upon request.

Please ask us, we will gladly prepare an individual offer for you.

black

copper

stainless steel, polished

golden

## Advantages of the PVD coating: (i)

- Food-safe
- Dishwasher-safe
- Better strength and adherence compared to galvanic refinement
- Brilliant colouring, colourfast and resistant against UV radiation

All items made of stainless steel can be powder-coated in all current RAL colours upon request. In contrast to PVD refining, this coating is not dishwasher-safe.

We will be delighted to advise you!
"Medusa" – risen from the deep-sea

These organically shaped bowls appear like creatures of the sea which float silently through the depth of the ocean. Even if the tentacles, modelled in numerous processing steps, appear very filigree, they still provide a safe base. Despite the solid stainless steel, these hammered bowls award a natural airiness and an almost floating impression.

"Medusa" offers the perfect setting for all sorts of seafood or extravagantly presented salads and desserts. Even as a decorative storage space, these bowls cut a good figure.

ZIEHER **93**

Etagere "DressCoat"

Food: Pâtisserie Walter
www.patisserie.de

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. The supporting rings with a diameter of 15 cm offer the possibility to insert not only plates and platters, but alternatively also bowls. Small black silicone rings keep inserted porcelain in position and prevent annoying clattering.

A very special aesthetic setup can be arranged by using a combination of several etageres along with the biggest plate of the "DressCoat" series (page 156). Numerous presentation areas on a total of four different levels can be created by placing additional plates directly on the table. The diameter of 22 cm is more than sufficient to put different pralines, petit fours and other creations of confectionery into the limelight in an impressive way. In connection with the almost invisible tier stands, the porcelain tablecloths appear amazingly airy and playful by their floating look-and-feel. A buffet presentation with an elegant vibrancy, caused by the drapery of the "DressCoat" plates – that's where it comes into its own.

Anti-slip-rings
etagere "DressCoat"

item	Ø in cm	PU
5178.21	21	6 pcs
5178.28	28	6 pcs

Even in the hotel room, the etageres can be positioned in an eye-catching way. Equipped with "DressCoat" or other tableware, small snacks, a selection of fruit or a sweet welcoming treat can be staged in an appealing way.
Please note:

We recommend the use of large plates on the lower level only.

"Flower-Tree"

etagere "Flower-Tree"
massive stainless steel 18/10, smooth finish, polished,
Ø29 cm, with miniature plates (approx. 9 cm x 7.5 cm)

item	height in cm	number of levels
2208.13	51.5	13
2208.25	71	25

"Flower-Tree" – A tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase
finger food, petit-fours and other delicacies. Also a selction of jam in handy jars
can be presented in an appealing way as well as fresh apples which, placed on the
leaves, invite to take one. These masterpieces of craftsmanship also accentuate the
beauty of each lobby by its decorative character.

The shape of the leaves is based on the already existing plateau plates and
"Flower-Tower" etageres (page 99 and 100). Especially on the buffet, this opens
up the option to arrange the buffet installations diversified, but nevertheless
harmoniously and variable.

The plateau plates are available on page 100.

The "Flex-Tree" enthuses by its versatility! On these trees, plain discs replace the fixed leaves. With a diameter of 5.5 cm, they offer sufficient space to equip the tree either with glass, porcelain or stainless steel miniatures.

To be on the safe side, they can be placed on black or white anti-slip silicone pads. This reduces the sound emission and at the same time increases the stability of the used miniatures. All trees are made of massive stainless steel and are accurately high gloss polished. The 8 mm thick foot is the perfect base and guarantees a safe stand.
Anti-slip pads made of Silicone are available on page 214.

"Table-Tree" NEW

"Table-Tree" – Tempting variety on the buffet

For the presentation of filigree delicacies in the smallest of spaces, the new "Table-Trees" from Zieher offer numerous possibilities for a stylish staging.

The trees can also be used on the buffet and are a beautiful supplement to the larger exemplars of the "Flower-Tree" and „Flex-Tree" family (pages 96/97).

A selection of fruit, chocolates or patisserie can be presented on the six organically shaped petals of the "Table-Tree" Flower. For surprising moments, the "Table-Tree" Pin offers the possibility of presenting finger food or small snacks on six skewers at different heights. Melon with ham, dates wrapped in bacon or tastefully filled parmesan baskets and edible flowers find an attractive place on the elegant branches. Each delicacy is held securely by an artfully shaped spiral and prevented from slipping.

The 30 cm high "Table-Trees" are made entirely of stainless steel by hand and polished to a high gloss.

The solid base forms the basis of these filigree products and ensures a secure stand.

Floral shapes in a steely gloss!

Seemingly organic shapes in an interplay with the gloss and reflections of hammered and polished stainless steel make up the special charm of this product line. Different etageres and plateau plates (page 100) allow a visually harmonious yet flexible and diversified presentation of appetizers or desserts on the buffet.

But also finger food, petit-fours, elaborately decorated cup cakes or a selection of chocolates in the guest room will find a convenient stage on these products. The ice cream/sorbet cups and petit-fours stands in various sizes make a nice complement and individually stage appetizers or a dessert.

The formal base for all products is a slightly arched and kidney-shaped miniature plate.

On three levels, the buffet etagere combines seven small plates each to a presentation platform of floral appearance and offers space to present up to 21 delicacies in a compact and stylish way. The single levels are supported by a filigree trestle made of massive stainless steel, which in shape and construction, deliberately readopts the design of other Zieher etageres. So nothing gets in the way of a harmonic combination of the different product lines.

The table etagere consists of one level only and is therefore perfectly suitable for the restaurant service to present intermediate courses, antipasti or dessert variations. This product is the ideal choice – even as a stylish storage dish for different types of fruit or accessories of daily use.

The massive marble platter with it's 24 holes forms a stable base for various uses. Whether coil shaped holders with matching miniatures made of porcelain and glass, skewers made of high-gloss polished stainless steel or presentation platforms in different heights – the skewer platter from Zieher offers numerous options to present small delicacies in an appealing way.

Elegantly served and presented in style – classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres with three levels are available in two sizes. Petit-fours, desserts, chocolates or other delicacies are effectively presented by the classic mini format etageres. The larger version is perfectly suitable for scones and jam during Five O'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table. Matching inserts made of porcelain, glass or stainless steel can be found on pages 254 and 255.

Please note:

The trees are being delivered with unbent branches; the bending has to be arranged before the first use!

The branches are made of stainless steel and will sag when loaded with food. This is why the branches should not be bent too far down when empty. In order to obtain a more favourable result, it is recommended to bend the branches one by one and to work in a circle from the outside to the inside.

The different attachments can be screwed onto the end of the branches, whereas the connection point should only be tightened up slightly. When using the rings or spiral supports, it is recommended to leave the connection point open by about half a turn, as they will turn into the apt position by themselves due to the weight of the attachments

Wildly bent tree branches, supported by a base made of polished stainless steel: The fingerfood-trees by Zieher are absolutely delightful due to their extraordinary look and variable uses achieved by the different attachments!

A number of suitable attachments and applications offer a lot of possibilities and form the basis for the chef's imagination. The fingerfood-trees are perfect for patisserie creations, savory snacks in the form of mini-wraps or skewers, fruit with chocolate icing or just for jam at breakfast buffets. Furthermore, they can be placed on both buffets and bar tables with the solid base ensuring stability.

This extraordinary way of presenting fingerfood will surprise and fascinate your guests and will definitely leave a lasting impression.

The fingerfood-trees are furnished with 30 branches, which in turn can be fitted with 5 suitable attachments (page 108). Besides a clip that holds wooden skewers and a spiral for small wraps and waffles, we offer rings in three sizes, of which the medium size is especially designed for holding small conical jam jars (e.g. Bonne Maman).

Velcro straps to fasten the branches and a stout carrier bag are available from the accessory section and allow easy transport and space-saving storage of the bent trees.

"Mercato"

The "Mercato" buffet baskets made of walnut are inspired by classic market boxes, but they are superior in many respects. Finger joints in the corners for maximum stability, solid walnut in modern design as well as deliberately chosen dimensions of the heights and lateral cutouts offer numerous advantages. "Mercato" can be converted quickly and flexibly into a buffet display by the use of buffet platters. These platters (pages 50 to 57) can simply be laid on or pushed into the lateral cutouts of the baskets (max. width 21 or 34 cm). In addition to the mere presentation of fruit or baked goods, "Mercato" is also ideal for the coffee break or for placing miniatures of any kind.

The integrated rubber feet ensure safe standing and guarantee the stackability of the baskets. Bread, rolls and pastries remain crisp and fresh longer, as the slotted bottom plates allow sufficient air circulation.

The "Solid" bed tray is a nice addition to this system. Due to its integrated foldable feet, there is no need for displays for elevated positioning. For more information on the bed tray, please see page 122, for the fitting "Solid" breakfast buffet, please check pages 116 to 121.

item	colour
1668.20	black
1670.20	white

The high-quality cutting board made of fine end grain walnut wood is much more than a shapely and elegant kitchen aid. This product only unfolds its full potential in connection with the respective stacking rings and bowls. All parts have a groove at the top, which allows quick and easy stacking of the various items, even in mixed arrangement.

The milled groove of the cutting board serves on the one hand as a juice groove, on the other hand as a receptacle for various glass cloches. Thus aromatic types of cheese can be presented. A classic cloche made of handblown glass or an extravagant organically shaped cover made of highly durable borosilicate glass protects and stages the food at the same time. The stacking ring creates different levels of presentation when used in a clustered arrangement of cutting boards and trays. Also, the capacity of the bowls can be increased so as to present, for example, long baguettes.

Accurately fitting connection plates made of hardened, white or black coloured glass, can be slid exactly into the grooves of the stacked rings and thus work as buffet platters between the columns. This creates additional space and raises the flexibility of this system at the same time. Additional sizes of these plates, made of the same type of glass (page 54/55), offer a nice supplementation and allow an optically balanced buffet presentation.

The system blends in harmoniously into the walnut wood series "Solid". Using further sizes of the glass cloches allow impressive arrangements on the buffet. Cutting board, ring and bowl are sealed with high quality oils. Especially regarding the cutting board, this enables the simple refurbishment of the surface from traces of daily wear and tear.

| 4777 + 4778 | 4776 + 4777 + 4778 | 4777 + 4778 | 4776 + 4777 + 4778 | 4880.26 + 4776 + 4777 + 4778 |

Each cloche on this page is handblown and handcrafted. In contrast to our cloches made of borosilicate glass (page 115), these items are made of a single massive glass drop. As a result there can be air inclusions and minor streaks which cannot be avoided. Each cloche is individual, the result is a harmonic enlivenment of the buffet for an attractive price

Bread and more – attractively presented!

The presentation of bread is not only important at the table, but at the breakfast buffet, too. The variety of baked goods wants to be put in the limelight.

Oblique displays for one or two wooden trays allow for a clear arrangement of various types of bread. With the help of a connector piece, two of these tray displays (item 4746) may be stacked and used on top of each other - the ideal solution for small buffet tables. A fitting cutting board including a crumb drawer and an exchangeable grate, a cutting board made of end grain wood as well as various bridges (to be found on pages 120 and 121) complete the series and provide the healthy and diversified breakfast with a new look.

Besides the flat bread tray you can also find a deeper version of this tray, which is suited especially for the presentation of rolls, buns, biscuits and pastries. A removable grate provides air circulation, freshly baked buns remain scrumptious longer. Two kinds of divisions (for the tray) offer space for several miniatures (pages 265 and 266) and allow for a flexible use of the system. A cutlery insert for the deep tray as well as an insert for slices of toasted bread round off the range.

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item

Suitable miniatures in sizes 5 cm x 5 cm or 7 cm x 7 cm are available on pages 265 and 266.

Please note: (i)

Items made of walnut wood are not dishwasher-safe.

The miniatures made of glass and china are available on pages 265 and 266.

The tray stand "Solid" is available on page 276.

The tray stand "Solid" is available on page 276.

Show cooking is a popular trend!

Whether using it for catering, at events or at the hotel's own buffet, the solid wood cutting boards by Zieher are pleasing eyecatchers and offer high functionality. The matching bridges can be equipped with bowls, putting everything tidily within reach for the work behind the buffet.

The dimensions of both cutting boards and bridges have been chosen in such a way, that exactly two boards and two bridges would fit into a regular transportation box. This is extremely useful when it comes to storing the items for their daily use and transportation for catering purposes.

"Solid" is entirely made of walnut, probably one of the most beautiful and most stylish woods.

bread cutting board "Solid"

walnut, oiled, not dishwasher-safe, with 4 rubber feet, with walnut grate (39.8 cm long, 24.3 cm wide, 1.8 cm high, exchangeable) and 18/10 stainless steel drawer for crumbs (with magnetic fixing)

item	l x w x h in cm
4733	48x32.5x4.3

The changeable grate of the "Solid" cutting board has been constructed to protrude slightly from the cutting board to protect its rim

replacement grate "Solid"

walnut, oiled, for bread cutting board "Solid" item 4733

item	l x w x h in cm
4733.R	39.8x24.3x1.8

cutting board "Solid"

walnut (end grain), oiled, not dishwasher-safe, with 4 rubber feet (screwed on), in black gift box

item	l x w x h in cm
4732.PB	48x32.5x4.8

cutting board "Solid"

walnut (end grain), oiled, stackable, not dishwasher-safe, with juice rim/groove to place cloches

item	Ø in cm	height in cm
4776	29	5

Please note:

The Zieher cutting boards are oiled. The use naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface. The removable grate for the bread cutting board (item 4733) can be ordered separately as a spare part (item 4733.R). The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care instructions.
Stackable in all usual transport boxes with a size of 60 cm x 40 cm (e. g. meat box, height approx. 20 cm)

bridge "Solid"
walnut, food-safe sealed, not dishwasher-safe, with 4 rubber feet

item	l x w x h in cm

"Solid"

The room service tray as well as the bed tray with feet stand out due to the precious walnut wood, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The tray also cuts a good figure on the buffet. The positioning feet make it possible to dispense with the use of displays for heightened placing. A speedy setup and flexible handling facilitate daily operations.

bed tray "Solid"

walnut, food-safe sealed, not dishwasher-safe, stackable, with feet, 2 handles, recessed on one side of the rim

item	l x w x h in cm (closed)	l x w x h in cm (set up)
4773	60x40x6.5	74x40x31

The rubber feet are set back from the rim to enable the transport in a tray trolley in 1/1 EN-format (60 cm x 40 cm).

The tray stand for the roomservice tray item 4735 is available on page 276.

The serving tray and suitable glass inserts are available on page 280, more "Solid" items on pages 234 to 245.

"Podia"

The buffet bridges and trays of the "Podia" series offer several advantages!

They are light but robust, flexibly usable and can be stored in a space-saving way. With its use as a display on the buffet, during coffee break or as a platter for fruit or little somethings in the hotel room - "Podia" offers multiple possibilities for use and flexible handling!

The tray in 1/2 GN format is especially suitable for different miniatures made of porcelain and glass. Slide-proof silicone coasters in different styles (page 214) guarantee a good grip during service.

All parts of this series consist of form-glued authentic wood veneer. The bridges are available in two types of wood. The light version harmonises very well with mundane but also with rustic-style furnishing, the version with the black-brown stripes appears exotic and modern.

Please note: ⓘ
