DESIGN STUDIO

YOUR NR. 1 IN CONTEMPORARY JAPANESE TABLEWARE

We design, craft and distribute top quality oriental tableware for households and businesses worldwide. Our established brand Tokyo Design Studio is inspired by Japanese culture and praised for its refined contemporary designs and high-quality standards.

With design teams located in both The Netherlands and Japan we aim to create a unique and constantly evolving signature. Respecting centuries of porcelain and pottery heritage, we constantly look for unexpected perspectives that help us create the tableware of today and tomorrow.

Our products are authentic by nature. Predominantly made in Japan by artisanal methods perfected over 400 years. Our pad-printed products are baked twice, then decorated one color at a time, glazed, and baked again. Throughout the process a meticulous quality control is applied, making sure each product is of the highest quality.

WASABI

This green color has cultural significance in Japan. It is associated with nature, freshness, and vitality. Additionally, the vibrant green of wasabi-colored tableware can create a visually appealing contrast with the colors of the food being served, enhancing the overall presentation. Delicate hand-decorated gradient circle of each dish embodies more than just mere aesthetics. This circle symbolises the profound essence of unity and harmony.

ARAHAKE

When ceramics or pottery are described as "Arahake," it means that the surface has intentionally been left with a rough or coarse texture. This technique can be achieved by brushing the surface with a coarse brush, leaving deliberate brush marks and a tactile, uneven feel. The roughness adds an aesthetic to the tableware, giving it a more rustic or handcrafted appearance.

SKULL

The Skull collection is designed by Royal Stafford, an industry leader in the manufacturing of English cream coloured earthenware. Established in 1845, Royal Stafford is recognised around the world for its high quality, beautiful tableware. Every piece of pottery is produced with attention to detail and a lot of love and care in one of the oldest pottery factories in Stoke-on-Trent, England.

After the first biscuit bake the products are decorated with the underglaze printing process, then glazed and baked a second time. This ensures that all creamware is extremely durable, dishwasher-proof and safe to use in a microwave. Our SKULL collection consists of plates, bowls and cups in various sizes.

OHUKE DAHLIA

The traditionally shaped porcelain bowls and plates have some relief, which, together with a matte finish, gives them a rich and luxurious look and feel. They lend an elegant note to any dining room – on their own or layered with other pieces from the Burashi collections.

The Dahlia and Karakusa line is ideal for those who want to mix and match but also strive for visual harmony. While the Dahlia pattern is inspired by Dahlia flowers, the Karakusa bowls are derived from Japanese artistic interpretation of an octopus, resulting in special color effects in lovely bright indigo blue. Graceful and timeless, they will make a welcome addition to your tableware collection.

SEIGAIHA

In a rich indigo on crisp white, the Seigaiha collection features beautifully detailed waves in a striking pattern. They are the traditional lucky motif in Japanese symbolism, representative of the boundless ocean, the flow of energy and good fortune. Like the other 'fine patterns', Burashi and Fleur the Ligne, Seigaiha pieces are made from high quality Japanese porcelain with an elegant matte finish.

JAPONISM BLUE & BLACK

Serve with a story. These graceful creatures are an ode to Asian myths, suggesting wisdom and supernatural powers. Drawn on pure porcelain, this tableware is a must-have for dishing out a good traditional ramen or noodles. And after dinner, please don't leave these porcelain pearls behind closed doors. They are true accessories themselves and add a certain finishing touch to all interiors.

TOKYO BLUE

This new collection is created using a technique called "sometsume." This technique involves painting cobalt blue pigment onto the white porcelain surface before glazing and firing it. The products often feature intricate floral motifs, such as cherry blossoms, peonies or chrysanthemums. The combination of blue and white is highly prized in Japanese culture and is often associated with elegance, simplicity, and a sense of tranquility.

FLORA JAPONICA

The Flora Japonica collection is inspired by Dutch botanists bringing back new plant species from Japan, centuries ago. It is all about exploring and admiring Japanese flora. National treasures like the fine-leaved maple, the heart-shaped katsura, pretty white pine trees and one of the oldest trees on earth, the ginkgo biloba, have found a place in our collection. Amidst these wonderful trees you'll find another Japanese phenomenon: the dancing cranes. Do you share our love for Japanese nature?

With Tokyo Design Studio we celebrate cross-cultural collaborations of the past and add a new chapter by giving a unique European twist to traditional Japanese pattern and tableware design.

Our Flora Japonica collection consists of porcelain plates, bowls and cups in various sizes. Each product is dishwasher-proof and safe to use in a microwave.

SHIN TOKUSA

"Shin" means new or fresh, and "Tokusa" refers to a particular grass or sedge plant. The pattern typically features delicate, hand-painted grass or sedge-like motifs in a stylized manner. The grasses are often depicted with thin, curved lines, creating an elegant and organic appearance. The design may incorporate additional elements such as leaves, flowers, or subtle geometric patterns. It is a testament to the rich tradition of Japanese pottery and the enduring appeal of nature-inspired motifs in Japanese culture.

LILY FLOWER

The lily, or "yuri" in Japanese, holds deep cultural and symbolic significance in Japan. It represents purity, innocence, and renewal, making it a popular choice for tableware designs. The Lily Flower design often incorporates subtle and muted colors, reflecting the serene aesthetic of traditional Japanese art. Soft pastel hues like pale pink, white, and light green are frequently used to depict the delicate petals and leaves of the lilies. Each piece is carefully crafted to be both functional and visually appealing, suitable for everyday use or special occasions.

CAST IRON TEA KETTLE

Originally created in Ancient China, the cast iron teapot has become a widely-known traditional Japanese artefact as more people are now drinking loose teas. The designs of the teapots include different symbols which have a range of meanings, such as joy, strength, happiness and blessings. The traditional name for a teapot is tetsubin and the way tea is brewed is called kyūsu. Over time, the designs have evolved, with the style or design of the teapot reflecting the class or desired class of the owner, therefore becoming a status symbol in society.

CHOPSTICKS

Chopsticks were developed about 5,000 years ago in China. By 500 AD, chopsticks had spread to Japan, Vietnam and Korea. Once you've got your technique nailed down, though, you might want to consider making it a regular habit: some people claim that chopstick use can improve memory-which will come in handy for remembering all those rules of etiquette. We have developed a wide range of chopsticks also available in beautiful designed boxes which makes our chopsticks an excellent addition to your cutlery drawer or a nice give away.

Product maintenance

PORCELAIN

Most of our porcelain is suitable for use in (industrial) dishwashers, microwaves and ovens. Gold decorated items are not suitable for microwave use, due to aggressive rinse and temperatures in dishwashers, golden decorated products are recommend to wash by hand. It is important that you follow the guidelines issued by dishwasher manufacturers. Excessive rinse temperatures and overdosing of washing agents may damage the glaze. Most damage occurs during loading and unloading a dishwasher. Preferably use special dishwasher baskets (racks) that prevent contact with other porcelain items during the wash cycle and at loading/unloading.

When removing food residues beforehand, use a plastic scraper to prevent damage to the glaze. Never use metal objects or cutlery for this.

STONE & EARTHENWARE

Most of our Stone & Earthenware is suitable for use in (industrial) dishwashers and microwaves, oven use is not recommend as there is a chance of breakage due to temperature shock. It is important that you follow the guidelines issued by dishwasher manufacturers. Excessive rinse temperatures and overdosing of washing agents may damage the glaze. Most damage occurs during loading and unloading a dishwasher. Preferably use special dishwasher baskets (racks) that prevent contact with other porcelain items during the wash cycle and at loading/unloading.

When removing food residues beforehand, use a plastic scraper to prevent damage to the glaze. Never use metal objects or cutlery for this.

WOOD & BAMBOO

Wooden items are not suited to use in an (industrial) dishwasher. The surface of the product can be maintained by regularly rubbing it with vegetable oil.

Wooden items must be washed in warm soapy water and then dried directly.

Wood & Bamboo is a natural product and will show wear and tear after a period of use.

GLASS

All glasses may be washed in an (industrial) dishwasher. We advise using dishwasher baskets to minimise breakages during the washing cycle and to use a non-caustic cleaning agent when washing the glasses. This is because caustic cleaning agents can damage the surface of the glasses and turn them dull. Always wash new glasses first before initial use. Never wash glasses at temperatures above 60 degrees. Higher temperatures can cause dirt to become baked onto the glass.

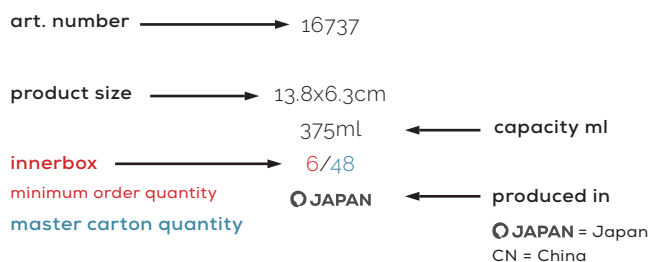

Never pour cold liquids into a hot glass as this can cause the glass to shatter. It is also advisable to gently prime a glass with hot water before pouring hot liquid into it.

MELAMINE

Melamine may be washed in an (industrial) dishwasher. Do not use any scouring agents, bleaches, scouring pads or metal objects to clean melamine, as this will leave scratches on the melamine. Melamine is not suitable for use in the oven or microwave. Melamine products are suitable for use in a bain-marie or chafing dish. When using melamine in chafing dishes, it is important that you pour sufficient water into the container.

Our melamine products are inspected and tested and approved food safe. Usage temperatures between -20 and 70 degrees.
