

The image features a variety of high-quality crystal glassware and barware arranged on a reflective metal tray. In the center is a tall, cylindrical glass with a complex, multi-faceted cut pattern, containing a silver-colored metal straw. To its left is a small, round, footed glass and a shorter, wider glass with a similar cut pattern. To the right of the central glass is a small, round, footed glass and a larger, wider glass with a similar cut pattern. The background is a blurred bar with various bottles and lights, creating a bokeh effect. The overall lighting is warm and focused on the glassware.

PRODUCT KEY

-  Registered Design Urban Bar are proud to be the originators of many unique shapes and designs of glassware and barware items, some of these are Registered Designs.
-  Non-Lead Crystal Different from standard soda-lime glass, our lead-free crystal offers a high level of clarity, giving a sparkle to the material. Perfect for a premium drink presentation.
-  Handmade The artisanal nature of handmade glassware adds a further chapter to your serves. A craft that takes years to perfect, all condensed in to the drinking glass used to serve your drinks.
-  CE Marked Any items carrying this mark denote that they provide a legal measure for the respective capacity of the item. For example, spirits legally have to be measured in particular capacities, these items provide the legal requirement.
-  White Box Many of our items are packaged in a white carton with the Urban Bar logo printed on the side.
-  Colour Gift Box Look out for this symbol next to some of our steel bar tools, which come packaged in colour gift boxes. These items still retain the professional quality that Urban Bar is known for, but they now look great as gifts, or for retail display.
-  Luxury Gift Box For presenting our selection of luxury products, items noted with the Luxury Gift Box icon are packaged in a thick card box with a bespoke inlay. Made for premium gifting options.

urbanbar®

We have been developing products for almost forty years and continue to develop and learn new techniques; this enables us to produce cutting edge items to keep pace with the evolution of mixology and drinking culture. Whilst at the same time we are striving to bring the skills of the past back into the future.

We don't release an item if we are not entirely confident in its design, functionality, quality and proud enough to allow it to carry our name.

We have developed this attention to detail and passion in our products through seeing how they are used and the energy and devotion put into the creation of a drink or the release of a new spirit.

Should you have any questions, issues or an idea for a new product then please do not hesitate to get in touch with us.

The main aspect of our business is working alongside many of the world's leading drinks companies to develop their bespoke glass and barware.

For more information please see [page 52](#)

CARBON NEUTRAL

Our commitment to the environment means every order you place is carbon neutral to your door whether you are ordering for your bar or online. Rest assured that by ordering with us you are helping maintain the health of the planet.

Urban Bar has offset more than 400 Tonnes of CO₂e, contributing to the Portel-Pará Reduced Deforestation (REDD) Project in Brazil.

This project works to prevent deforestation in the Amazon rain forest helping maintain the natural habitats of numerous endangered species. The REDD Project covers an area of rain forest 177,899.5 Hectares in size, home to an abundance of diverse species important to the maintenance of various tree species throughout the rain forest.

The project aims to avoid over 22 million tonnes of carbon dioxide equivalent (CO₂e) greenhouse gas emissions over a 40 year period.

COCKTAIL GLASSES

COCKTAIL GLASSES

GIN

The Urban Bar Gineva Gin Balloon is the world's first stacking gin glass. Maintaining the classic appearance of a copa de balon, the Gineva glass adds a unique function to the popular gin balloon.

This unique cocktail glass makes storage more functional, with each glass stacking together. You can store up to double the number of Gineva Gin Glasses compared to standard gin balloons.

Gineva Stacking

UB4506 ⑧ ⑨
60cl / 21oz
H 170mm, W 105mm

- The World's first stacking gin balloon glasses
- Classic Spanish copa de balon style
- Big capacity for mixers or extra ice
- Elegant seamless pulled stem adds beauty and strength
- Cut and polished rim for finer tasting

WINE MEASURES

AERO®

Lending our touch to the world of wine service, Urban Bar have given a much needed redesign to the classic wine measure. Doing away with the unimaginative, simple tubular shape, our wine measures have borrowed from the runaway success of the sleek Aero® Jigger and added a smooth concave curve for a design that is both aesthetically and ergonomically enhanced.

All Aero® Wine Measures are CE marked for by-the-glass wine service in licenced establishments.

BAR TOOLS

COLEY® BAR KNIFE

Premium mixologists bar knife combining essential cutting elements with stunning aesthetics and an ergonomic design.

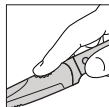

Coley® Bar Knife
UB4369 ⑥
4 Inch Blade
L 215mm, W 22mm

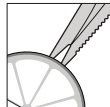

Part serrated blade for easily making an incision in to fruit skin, with a smooth sharp blade following to finish the slicing action

Double sided blade allows you to change the direction of your cut without twisting the knife around, perfect for carving garnishes

Finger recess for precision cutting, to keep your finger safe from the sharp blade, and allow you to exert pressure when cutting

Forked tip for handling ingredients, avoiding contact with hands, reducing flavour contamination and increasing hygiene levels

FREEPOUR®

A registered design with practicalities in mind as opposed to just pouring or storing.

Freepour® Bottle
Red UB100R
Yellow UB100Y
Blue UB100B
Orange UB100O
Green UB100G
White UB100W
 105cl / 37oz
 H 340mm, W 99mm

- Three pieces: coloured top, storage base and matching coloured storage lid
- 108L brim full: not a US quart (95cl) so a 5% saving in the juice bill
- Air intake hole on shoulder prevents blockages and allows smooth flow of juice
- Choice of 6 colours
- Textured neck for easy grip
- Fits all speed rails
- All pieces go straight in glass washer: no more forcing of pouring spouts, soaking or having to remove and clean pieces.
- The plastic is not brittle so tops less likely to break when dropped
- Rigid, semi transparent, wasted body: easy grip, prevents flexing and spillage when filling

BARRELS

AMERICAN WHITE OAK AGEING BARRELS

Ageing your own spirits and cocktails gives you a unique opportunity to create something new. Our tabletop mini oak barrels let you innovate on popular spirits, and create new tastes. The American white oak has a medium char, imparting a smokey, smooth character with vanilla and caramel flavours.

KIT BAGS

LEATHER KIT BAG

Leather Kit Bag

UB4481
H 270mm, W 250mm, L 400mm

The ultimate in kit bags, hand made from premium brown cow hide, it has a strong handle and removable, adjustable shoulder strap. The interior has a large internal zip pocket and a smaller pocket for a phone as well as seven compartments. The compartments have Velcro on the walls enabling them to be adjusted to fit different sized items. The large compartment can either take the matching bartender roll and/or two to three spirits bottles. The base is padded and underneath has 6 metal feet. We recommend some leather food to help with the upkeep of the leather.

BARTENDERS ROLL

Made from premium brown cow hide, padded and lined in ballistic nylon. With a variety of elasticated loops (sixteen) and three adjustable Velcro straps, it can accommodate virtually any tool. There are two padded flaps to fold in and then roll; tying up with two leather straps.

Leather Roll

UB4482
W 350mm, L 450mm

Please note: Bar tools are not included in the Leather Bag and Bartenders Roll, for illustration purpose only.

COCKTAIL SETS

5 PIECE COCKTAIL SET

Mix perfect cocktails with the perfect barware. The Urban Bar 5 Piece Cocktail Set contains essential bar tools for mixing 95% of the world's cocktails to a professional level. Made from high grade 18/8 steel, this premium cocktail kit is finished with a brilliant shine, and is made for longevity.

The Urban Bar 5-piece sets are packaged in a luxury buckram gift box, with a bespoke presentation inlay, and finished with a colour printed sleeve.

MR SLIM

Notorious with world class bartenders, the Mr Slim jiggers are the original Japanese measures that now inspire mixology culture. The slim waist of the premium steel jiggers makes it easy to flip to utilise both sides of the measure, and internal lined measurements give more options when pouring spirits, increasing the efficiency of your cocktail making.

1910

Inspired by classic antique drinkware decoration, this collection of lead-free crystal glassware offers a wide range of shapes for a vintage inspired drink service.

The lead-free material gives the contents the best window to appreciate the visual aspects of your drinks. The delicately etched 1910 pattern is designed to work with the premium lead-free crystal to refract the light and sparkle on the bar top.

COLLECTIONS

1920

The unique 1920 glassware pattern emulates the pattern of bubbles in a sparkling drink. A series of round bubble shapes are preceded by vertical movement lines that lead up to a band of small explosions and waves. Each piece is made from lead-free crystal, which has a premium transparency, allowing the delicately etched pattern to sparkle in the light. The 1920 glassware looks as stunning on the shelf as it will with your drinks served inside.

1890

The 1890 range of glassware is characterised by a delicate etched pattern, evoking Victorian and Edwardian design. The intricate decoration is inspired by Edwardian style floral swag design, making these glasses perfect for retro venues. Made from premium lead-free crystal, the 1890 glassware features a high level of clarity that allows the drink inside to catch the light for best display.

DESIGN RIGHTS

All copyright, design rights and intellectual property rights existing in our designs and products are and will remain the property of Urban Bar/Sandbar AP Ltd.

We work alongside many of the world's leading drinks companies to develop their bespoke glass and barware, this is the main aspect of our business.

- Develop concepts/items within brand guidelines, that can be manufactured
- Producing renders, technical drawings, 3D printed, plexi models and actual samples
- Offering all packing and branding options
- Offering competitive costs including global delivery/stock holding as required

We can offer this service in glass, steel and plastic from as few as 500pcs of handmade glass and 20,000 machine made.

CARE

CARING FOR GLASS

All Urban Bar glassware is dishwasher safe, however care and attention is always recommended when handling and cleaning our glasses to increase their lifespan.

MECHANICAL SHOCK

Mechanical shock refers to a physical impact on a glass, usually from another glass, or piece of tableware. All glasses have a certain resistance to mechanical shock, however repeated impacts will reduce the strength of any glassware item.

THERMAL SHOCK

Sudden changes in temperature on a glassware item is known as Thermal Shock. Due to dense nature of glass, fast expansion and retraction of the material when exposed to heat or cold can weaken the overall structure of the item. All glassware has a certain level of thermal shock resistance, however repeated exposure to sudden temperature changes can lead to glassware breakages.

GUIDELINES

Follow these simple guidelines to help increase the lifespan of your glassware.

- Hand wash Urban Bar glasses individually, and do not soak them with other glasses
- Avoid the rims of martini glasses coming into contact with other glasses
- Never scoop ice with a glass or stack them, unless they have been designed for stacking
- When pouring hot drinks, always preheat the glass with hot water
- Conversely, never put cold water or ice into warm or hot glasses

CARING FOR STEEL

Our stainless steel items are all made from the more premium of the two steel types used in the catering industry (18/8) and as such needs no care guidance and can take everything a normal bar can throw at them.

CARING FOR PLATED STEEL

These need a bit more looking after than your regular steel. While the plating is secure on the steel item, it is a coating, so could be scratched off if not looked after properly.

- Hand wash only and no abrasive scrubbing
- We do not recommend metal polishes as these will slowly remove the coating and could leave a residue affecting the taste of drinks made with the tools.

CARING FOR PLASTIC

Whilst all our plastics are dishwasher safe and virtually unbreakable, they should not be used with boiling water. If handwashing, do not use abrasive cloths.

CARING FOR BARRELS

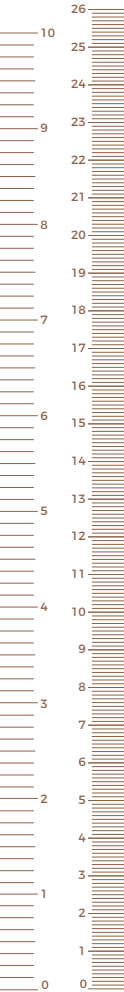

Oak ageing barrels are a long-term investment. Designed to age spirits and cocktails for months at a time, our barrels are expected to last up to 10 years if treated correctly.

- Always cure your barrel before first use
- Never let your barrel dry out - a dry barrel can be permanently damaged
- Use separate barrels for different spirits - after a barrel has been used, the wood will have taken on some of the flavours and characteristics of the contents
- Store your barrel in a cool, damp environment to minimise evaporation
- Inbetween use, keep the barrel filled with storage solution to prevent it from drying out

Please visit our website for extensive barrel use and care guides.
