DINING IN THE DUNES

SUPERIOR
DESIGN

Invite your guests on a journey into a magical world full of secrets and stories about the beauty of the Orient. The Panaro natural stone series captures the essence of desert landscapes, the subtle hammering of the Martello cutlery series reflects oriental craftsmanship, while Monastir's undulating relief recreates the endless sand dunes of the Orient. Complete the ambience with accessories from stories from 1001 Nights: wooden elements reminiscent of magnificent palaces, dried flowers that capture the eternity of the desert and woolen blankets that promise the cozy warmth of oriental nights.

SUPERIOR
DESIGN

The "celestial desserts" are created in the stillness of the forest, where the moonlight gently streams through the branches and the stars set the rhythm of the night. The plates from the Gironia and Snug series and the Magazzolo wooden platter provide a stage for desserts that seem to come from another world. The interplay of delicate porcelain and the down-to-earth warmth of wood takes your guests into a world where every bite whispers of ancient legends and every spoonful draws them deeper into the magic of the forest.

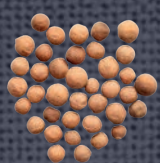

CELESTIAL DESSERTS

DOWN TO EARTH

Take your guests "down to earth". Each piece in the Panaro natural stone series, the Gironia porcelain series and the Novulus stoneware series is like a chapter from an explorer's diary, recounting long journeys across the seas and through exotic lands. They are carefully designed to support the culinary presentation without standing in front of the complex flavors and colors of the food. The meals on these plates are an ode to the daring pioneers and adventurers whose search for noble spices has enriched the worlds of taste and taken us "down to earth".

KALEIDOSCOPE KITCHEN

SUPERIOR
DESIGN

In the "kaleidoscope kitchen", meals become a colorful stage full of fantasy and play. This concept is like a culinary tic-tac-toe, where every combination is a delight for the eye and the palate. The color contrasts and the varied design of the bowls and plates create an impressive platform for your culinary creations. Here, every dish – whether a crispy salad or an artfully garnished vegetable bowl – becomes part of a dynamic puzzle that transforms healthy eating into an entertaining and aesthetic experience.

„Food for soul“ – a culinary promise that takes your guests on an unforgettable journey of the senses. The Saturnus porcelain series, the Tusa melamine platter and the Fenra real wood platter are the narrators of an unfolding story that becomes deeper and richer with every course. Imagine the moment when your guests pause to appreciate the carefully orchestrated harmony of form, material and craftsmanship.

FOOD FOR SOUL

Each plate becomes a stage on which flavors unfold and the soul is touched – and celebrates a hymn to a culture of indulgence that invites your guests to experience the connection between culinary pleasure and deep well-being in a new way.

SOPHISTICATED BY THE SEA

"Sophisticated by the sea" combines the timeless elegance of marble with the transparency of glass, creating an atmosphere reminiscent of the clear and deep waters of a calm ocean. The Mar-maro glass plate series captures the essence of water and stone, while the Melezza display takes the presen-

tation of delicate sea flavors to a new level. Be inspired by our product ranges, which are as diverse and varied as the sea itself and provide a unique backdrop for your delicacies.
