Tabletop Inspiration for Cafè & Coffee Shops

As consumers love of speciality coffee, premium tea and brunch continues to grow we turn to the humble local café or coffee shop as a meeting space for all occasions.

In urban areas coffee shops aren't just refreshment pit-stops, they're community spaces for business meetings, freelance workers and society meets.

The café experience is changing and growing along with the way we drink coffee and tea. Innovations in speciality coffee continue as independent roasters and baristas pursue perfection and tea moves from an inexpensive, everyday drink to a premium tippie.

Sustainability is a core topic for the hospitality industry and cafés are leading the way, working collaboratively to reduce waste, promote societal well being and support the local areas.

PREMIUM TEA

—

Tea is served as a crafted beverage, hailed with health attributes and seen as a luxury indulgence. The premiumisation of tea sees creative loose leaf blends, botanical and natural flavours or spices

from tumeric, cumin and more. The humble English Breakfast teabag now competes against exotic fusions of quality leaves, served brewed to perfection in stylish cups and teapots.

LUNCH BREAK

A café is more than a coffee shop, it's a workspace and meeting room, a spot for a catch up with friends, a place for club meet ups and more. Lunch is an essential element of a café's offering, from healthy

salad bars to home cooked classics or even grab and go sandwiches bought in from a local deli. Adding colour to tableware enhances the presentation of salads, soups, sandwiches and more.

SOMETHING SWEET

Displays of freshly baked pastries and cakes, heaped on coffee shop counters serve to tempt customers into treating themselves to something sweet. Made locally and daily, cafés serve up baked goods just as

artisan and crafted as their coffee. Special diets are catered for with gluten free and vegan options, and desserts are made a little healthier with natural sugars and sweeteners.
