

Brand Profile

A Love for Ceramics

Loveramics is an internationally recognised ceramics brand, synonymous with quality and craftsmanship.

At Loveramics, we're breaking the proverbial mould on pottery. Shattering stereotypes on classical and formal approaches, through stylish contemporary designs where our passion is evident in every piece.

We're pushing boundaries – shifting tableware away from its humble product roots and into a place where creativity comes first. And we're doing it in a way you wouldn't expect: by taking it all back to basics.

Simplicity is key, our modest concept blending top-notch materials and skilled artisans for clean, clear-cut designs. Dinnerware where the meal takes centre-stage. Cookery tools that complement the culinary process. Coffee and tea cups where minimalism magnifies flavours. Wine and water glasses that curve in all the right places.

All of it practical, all of it affordable – Loveramics pieces are about enriching your inner epicurean, while inspiring fresh interest in the fascinating process of the world's oldest material.

Ours is steeped in history, dating back centuries to the traditional forms that refined the process. But we also ensure each ceramic's inner-workings are infused with a 21st century mentality, through digital modelling, computer-aided designs and advanced machinery bringing the pieces as close to perfection as possible.

It's all part of the Loveramics brand, a global focus with a local approach. A community-driven mindset that sees us crafting humble, quality products that we would want to use. And really, it's just a happy accident that they're the preferred choice of chefs, baristas and sommeliers everywhere.

Made with Pride

At Loveramics, all our products are made with pride, crafted in our very own workshops by highly skilled artisans. Each piece is handled with absolute care throughout the process, and this attention-to-detail gives our brand its unique identity.

That sense of pride means we only ever use the highest quality materials and techniques. We fire our porcelain to 1300-degrees Celsius, ensuring strength and durability, before applying brightly coloured glazes that come with a beautiful high-gloss finish.

We're also proud to be a sustainable brand, one that feels a strong responsibility for our environment. To assist us in our goals, we've built our own on-site water recycling plant, while also reusing surplus heat from our kilns in other processes.

Global Lifestyle

Hong Kong is where our brand had its beginnings, and throughout everything we do, we make efforts to represent this unique place that we call home. It's a truly East meets West destination, a vibrant, cosmopolitan city that never stops.

At Loveramics, we feel we're part of a global village that starts in Hong Kong and stretches all across the world. Our lifestyles are all influenced by one another, with interconnected languages, cuisines and creativity.

But modern life demands a human touch, and through our products, we aim to celebrate the humanity that's part of everyday life.

Concept & Design

At Loveramics, our design process isn't formed by fashion or trends. It's intuitive, a response to product development that's guided by our love of ceramics, utilizing the world's oldest consumer material.

The process is also influenced by our consumption habits, customs that are constantly evolving but with founding principles that have stayed essentially the same. We ask simple questions. Are our products the ideal size? Are they practical, durable and beautiful? Will they enrich lives? When Simon Stevens, our head of design, adds his passion and vision to that overall philosophy, the products come to life and become part of the Loveramics family.

Our products not only showcase our love for gastronomy, they enhance the very experience of eating and drinking. We celebrate the artisan – those passionate few who understand true quality and appreciate the care and attention we put into our products.

We're proud of our status chefs, baristas and tea sommeliers, and we share their ambition. We believe the many people who use our products all share a passion for the simple pleasures in life – as do we.

Traditional yet Modern

We manufacture tableware the same way it was invented, with craftsmanship and handwork date back in centuries. We reinvented ourselves by adding 21st century digital modelling, computer generated cads in designs and automatic machines to help make work efficient.

Touch & Feel

The internet is constantly shaping the retail landscape, but alongside the many benefits comes a disconnect between the customer and the product. That's why we'd like you to come to our stores and experience our ceramics first-hand.

We welcome you to hold our products, to experience the sensations of touch and feel on our pieces. Form and texture are essential to making a practical, emotional connection between you and the ceramics. And right alongside, our helpful staff are always on-hand to answer any questions you might have.

Environmental & Product Safety

When we visualise our products, we think about you, your table, your kitchen, your coffee shop or restaurant. Your lifestyle. We aim to create classic ceramics that are part of your life both now and forever.

We use natural raw materials in our formula, and all batches of products are tested before they are packed. All of our products comply with any modern food safety standards.

Recyclable and Reusable Packaging System

All of it practical, all of it affordable, alongside impassioned personal touches that guide our traditional emporium approach. We want you hands-on, experiencing our products in-store and in-person. Our well-versed staff are here to serve, and through their inherent love for the world's oldest material, we hope to inspire fresh interest in pottery and ceramics.

Sustainable Manufacturing

We're also proud to be a sustainable brand, one that feels a strong responsibility for our environment.

To assist us in our goals, we've built our own on-site water recycling plant, while also reusing surplus heat from our kilns in other processes.

Longevity and Durability

That sense of pride means we only ever use the highest quality materials and techniques. We fire our porcelain to 1300-degrees Celsius, ensuring strength and durability, before applying brightly coloured glazes that come with a beautiful high-gloss finish. The products are made to last a lifetime.

Unleashing Organic Elegance

About this collection:

Introducing the Egg, the official cup of the World Latte Art Championship from 2015-2023. You can find these cups in your favorite cafes, serving coffee in 5 different sizes to ensure consistency in every recipe. Inspired by our travels to 5 natural habitats, we have dedicated 5 new glazes in earthy, neutral tones to represent these beautiful environments. These new colors will effortlessly complement the interior trends of 2024.

Made with our signature uber durable Loveramics body, the Egg features a natural matte finish that adds a unique touch to each piece. The runny nature of the glazes creates a one-of-a-kind look that is sure to stand out. Not only are these cups stylish, but they are also practical, being microwave, dishwasher, freezer, and oven safe.

Egg *Potters Colours*

Unleashing Excellence, One Cup At A Time.

About this collection:

We pride ourselves on our handcrafted ceramics that pay homage to the traditional techniques of potters from thousands of years ago. Our signature Potters Colours are created by combining two reactive glazes, resulting in unique and vibrant patterns that are a testament to the artistry of our skilled craftsmen.

As the official cups of the World Latte Art Championship from 2015-2023, our Potters Colours are a staple in your favorite cafes. With five different sizes available, we ensure that every cup of coffee served is consistent and of the highest quality. Our glazes are carefully selected for their properties, creating unexpected and exciting results that add an extra touch of excitement to our ceramics.

At Loveramics, we take pride in the artisanal look of our products. Each piece is hand dipped, resulting in slight variations that add character and charm to our ceramics. From crystal growth to speckling spots, every detail is highly prized and adds to the unique beauty of our Potters Colours. We invite you to experience the tradition and artistry of Loveramics through our one-of-a-kind ceramics.

Egg

Set Of One - Mineral Colours
Effortlessly Stylish Now

About this collection:

Introducing the Egg, the official cup of the World Latte Art Championship from 2015-2023. You can find these cups in your favorite cafes, serving coffee in 5 different sizes to ensure consistency in every recipe. Inspired by our travels to 5 natural habitats, we have dedicated 5 new glazes in earthy, neutral tones to represent these beautiful environments. These new colors will effortlessly complement the interior trends of 2023.

Made with our signature uber durable Loveramics body, the Egg features a natural matte finish that adds a unique touch to each piece. The runny nature of the glazes creates a one-of-a-kind look that is sure to stand out. Not only are these cups stylish, but they are also practical, being microwave, dishwasher, freezer, and oven safe.

In addition to the 5 new natural colors, we are also introducing 5 new potters colors in a matte reactive glaze. These sought-after colors are perfect for the latest interior design trends and will add a touch of sophistication to any setting. With the Egg, you can enjoy your coffee in style while staying on top of the latest trends. Trust Loveramics to provide you with high-quality, durable, and stylish cups for all your coffee needs.

Set Of One - Potters Colours
Effortlessly Stylish Now

About this collection:

Welcome to Loveramics, where we pride ourselves on our handcrafted ceramics that pay homage to the traditional techniques of potters from thousands of years ago. Our signature Potters Colours are created by combining two reactive glazes, resulting in unique and vibrant patterns that are a testament to the artistry of our skilled craftsmen.

As the official cups of the World Latte Art Championship from 2015-2023, our Potters Colours are a staple in your favorite cafes. With five different sizes available, we ensure that every cup of coffee served is consistent and of the highest quality. Our glazes are carefully selected for their properties, creating unexpected and exciting results that add an extra touch of excitement to our ceramics.

At Loveramics, we take pride in the artisanal look of our products. Each piece is hand dipped, resulting in slight variations that add character and charm to our ceramics. From crystal growth to speckling spots, every detail is highly prized and adds to the unique beauty of our Potters Colours. We invite you to experience the tradition and artistry of Loveramics through our one-of-a-kind ceramics.

Tulip

Caffeine Connoisseur Extraordinaire.

About this collection:

Every detail is carefully designed and crafted to bring out the best in your coffee experience. Our tulip range is no exception, with its impeccable quality and attention to the smallest details. Whether you're a coffee lover or a barista, our range is sure to meet your demands and elevate your coffee game.

The functional round base of our tulip range is a game-changer. It creates turbulence while brewing, allowing the aromas and flavors of your coffee to reach a perfect balance. Made from high-fired quality porcelain, our range is not only strong and durable, but its thick body also helps to maintain the temperature of your coffee and preserve its taste.

We understand that every coffee lover has their own preferences, which is why our tulip range comes in a wide range of colors and capacities. This allows you to prepare every perfect brew, just the way you like it. So why settle for anything less than perfection? Choose Loveramics and elevate your coffee experience today.

Bond *Starsky and Hutch*

Revolutionizing The Classic Mug

About this collection:

Introducing Starsky and Hutch, the dynamic duo of diner mugs inspired by the iconic 1970s movie. These mugs are a tribute to the coffee culture of the time and can often be found in vintage American diners. We at Loveramics have taken this classic design and given it a modern twist, bringing it into the year 2024.

Our updated range features two newly designed Hutch Mugs, available in two different sizes and a variety of stylish gradient colors. We have carefully considered every detail, from the flared opening that makes drinking a pleasure, to the perfect curvature that fits your lips just right. These mugs are not only a nod to our heritage, but also a practical and stylish addition to your coffee routine.

At Loveramics, we are passionate about preserving the beauty of classic designs while also finding ways to improve and update them. Our Starsky and Hutch mugs are a perfect example of this, combining nostalgia with functionality. Whether you're enjoying a dripper coffee or an espresso, these mugs are the perfect vessel for your favorite brew. So why settle for ordinary mugs when you can have a piece of movie history in your own home?

About this collection:

Introducing Bond from Loveramics - a true masterpiece in design and functionality. This mug features a unique "round continuous curve" that not only adds a touch of elegance, but also allows the aroma of your coffee to fully develop. The ultra-thick wall of the cup not only makes it incredibly durable, but also helps to maintain the perfect temperature of your coffee. And with its heat trap design, the BOND mug ensures that your coffee stays hot for longer, thanks to the extra space at the base.

But that's not all - the avant-garde handle is designed to not only add to its modern aesthetic, but also to improve your coffee-drinking experience. The handle's placement modifies the cup's center of gravity, giving you better balance when pouring latte art and added comfort when sipping your favorite brew. This post-modern, designer mug has been a classic in Loveramics' portfolio for over a decade, and has been used in thousands of cafes around the world. It even has a special "bond" profile and has been featured in design museums.

Available in a 300ml size, making it the perfect diner mug for enjoying a good, honest cup of Americano or Aeropress coffee. And with 13 different colors to choose from, you can easily find one that matches your personal style and complements your interior decor. So why settle for a plain, ordinary mug when you can elevate your coffee experience with the mug from Loveramics?

Bond *Ibrik Coffee*

Elevate Tradition, Brew with Precision

Designer of this series:
Pierre de Chanterac

Pierre is the World Champion of Cezve / Ibrik Championship by WBC in 2023. In addition, he has 2 times brewers cup champ, 1 time aeropress champ & Q arabica grader. Passionate about quality, sensory and origin. Currently, he lives in Paris and is Head of coffee in a specialty coffee roastery.

About this collection:

In the pursue of making the best ibrik possible, Pierre couldn't find a cup that matches all the technical criteria, while being modern in approach and beautiful.

Ibrik or czeve is often associated with traditional equipment, shapes and designs. Pierre has been playing with this method enough to know that it offers outstanding and refreshing results. He unlocks this potential for the cup that everyone could embrace to discover what specialty ibrik is about.

So Pierre connected with us with this challenging idea : to craft a modern, specialty driven ibrik cup. By playing with its shape, thickness and aesthetics, we managed to add a new dimension of what a modern Ibrik coffee can actually taste like.

Special Features:

Shape

The wider opening enables the coffee grounds to sink at the bottom of the cup and to remain well settled. The waves offer an extra layer of care to ensure a clean cup.

Thickness

The thick walls help to absorb part of the heat quickly. The coffee reaches a palatable hot temperature around 3 to 4 minutes.

Size

With its 110ml capacity, you can expect from 7 to 9 sips. Perfect for a classic Ibrik.

Texture & Colour

The cup has a silky and smooth texture in pastel colours, that help with the perception of sweet flavours.

Brewers *Boram Um*

Indulge In Sweet Coffee Bliss

Designer of this series:
Boram Um

Boram Um is the World Barista Champion in 2023. He represents Brazil in the world stage, and was crowned the final winner. Boram comes from coffee producing background, in which his family owns a coffee farm in the State of Minas Gerais in Brazil. In this collaboration, he works with Loveramics exclusively for this special edition of Brewers' cups, which is determined to bring extra sweetness to your drinking experience.

About this collection:

During our meeting with Boram to discuss collaborative ideas, we were impressed by his direct approach. He wasted no time in sharing his thoughts on the importance of sweetness in coffee and how incorporating bright, happy colors in a wider opening would enhance this element. We were also delighted to hear about his love for our Embossed Tasting Cups range and his desire to have his own version. Together, we co-designed a range that combines the best of both our ideas.

Boram designs the cups to have a wider base, creating more balance and harmony with while focusing on the sweetness of coffee. The result is a set of cups available in 80ml, 120ml, and 200ml sizes that will elevate Boram's competition set to champion status. We are proud to have worked with Boram to create a range that not only reflects his vision but also showcases our expertise in crafting high-quality, functional ceramics. We are confident that these cups will not only enhance the coffee drinking experience but also add a touch of elegance to any setting.

We value collaboration and are always excited to work with passionate individuals like Boram. Our partnership with him has not only resulted in a beautiful and practical product but also strengthened our relationship with the coffee community. We look forward to seeing these cups in action and continuing to work with Boram and other coffee enthusiasts to bring innovative and stylish products to the market.

Flatbed Dripper

Satisfy Your Cravings

Designer of this series:
Simon Stevens

Simon Stevens is an award winning product designer and a driving force in ceramic design. Simon has worked with some of World's most prestigious ceramic manufacturers and has taught and lectured on the subject throughout the UK. He has headed up Design Teams for lifestyle brands and now continues his design career in the established Simon Stevens Design Studio based in London. Simon's dynamic creativity resulted in his most successful designs being in the permanent collections of the Victoria & Albert Museum and the Frankfurt Museum of Applied Art.

About this collection:

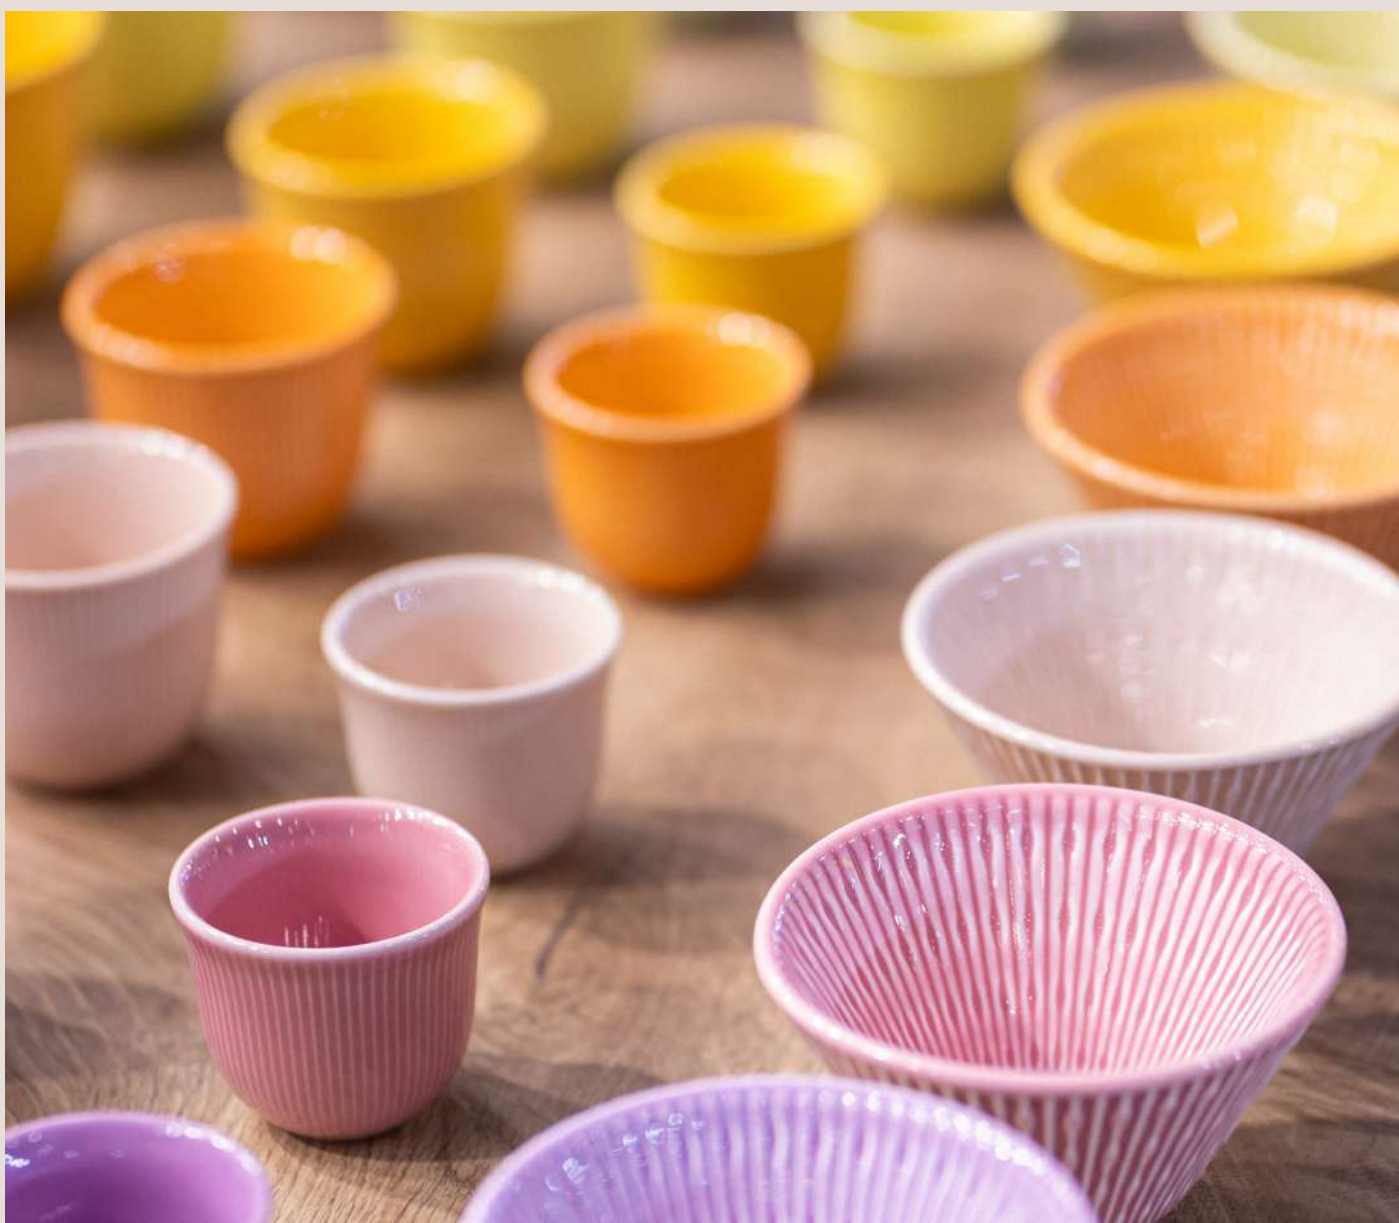

Introducing the latest addition to our dripper range - the fast flowing, flat bed dripper from Loveramics. Engineered to brew differently from our existing drippers, this innovative design promises a full pour over experience. Available in 13 vibrant colors, this dripper perfectly complements our Brewers Embossed Tasting Cup for a complete and stylish brewing set.

Designed to serve both 1 or 2 cup portions, the Flatbed Dripper features a classic flat bed wavy paper that works seamlessly with our dripper stand and glass jug. With a recommended brew test of 18-25g of coffee and a 1:12-15 water ratio, this dripper consistently produces fantastic results. The newly designed embossment creates subtle spacing between the paper and dripper, allowing for a faster brew time. The floral shape of the dripper also increases the brewing area by 120%, resulting in an extra sweet and delicious cup of coffee.

At Loveramics, we are passionate about creating beautiful and functional products for coffee lovers. Our fast flowing, flat bed dripper is no exception, with its elegant design and efficient brewing capabilities. Experience the perfect pour over with our new dripper and elevate your coffee brewing game.

About this collection:

At Loveramics, we understand that brewing the perfect cup of coffee is an art form. That's why we created the Loveramics Brewers Drippers - to give you complete control over the brewing process like never before. With our drippers, you can unlock the full potential of every type of bean and roast, or tailor the brewing time to your own personal taste. Our goal is to empower coffee enthusiasts to create the perfect cup every time.

Our Brewers Drippers feature three unique embossments, each with a different surface area. This allows for varying brewing speeds, giving you the ability to experiment and achieve different textures and flavors in your coffee. Whether you prefer a slow, rich brew or a quick, bold cup, our drippers give you the flexibility to create your ideal cup of coffee.

To complete the set, we also offer three stylish dripper stands in different colors and finishes. These stands not only hold the drippers in place, but also add a touch of elegance to your brewing experience. With Loveramics, you can brew your coffee with both precision and style. So why settle for a mediocre cup of coffee when you can have complete control and elevate your brewing game with Loveramics Brewers Drippers?

About this collection:

Featuring tasting cups in three different shapes: Floral, Sweet, and Nutty. Each cup is crafted with a special artisanal glaze, inspired by Chinese calligraphy. The glaze is allowed to flow freely in the bath, resulting in a wild and unpredictable pattern that is unique to each cup. This natural movement creates a beautiful and one-of-a-kind design.

The update collection comes in two classic colors, Black and Cobalt, which adds a new life to our amazing coffee range. The glaze is applied at the perfect moment, ensuring a truly artisanal finish. The patterns on each cup are all different, yet they are all created with the same natural movement, making each cup a work of art. Whether you prefer a floral, sweet, or nutty taste, our tasting cups are designed to enhance your coffee experience.

With its special glaze and natural patterns, each cup is a reflection of our passion for creating artisanal and high-quality products. Choose from our three different shapes and two classic colors to find the perfect cup for your coffee. Elevate your coffee experience with Loveramics' update collection.

Dale Harris

Unleashing Greatness, One Cup At A Time.

Designer of this series:
Dale Harris

Dale Harris, the World Barista Champion in 2017, was exploring what could be possible within the confines of barista competition service, and how the sensory impact of drinks could be improved through a wider experience, he began working with London based ceramicist, Ben Sutton, on some porcelain cups that would allow a set of coffee drinks to really shine. The designs were focussed on Ben's artistic skill with hand-thrown porcelain, combining elegant aesthetics with the materials and glaze's natural tones and textures to highlight the colours, quality, and multi-sensory impact of the drinks.

About this collection:

The Dale Harris Cups are a special collaboration between Loveramics and Dale Harris, the World Barista Champion. Originally designed and handcrafted by Ben Sutton, a talented potter and close friend of Dale, these cups have become a beloved part of the coffee competition scene. Dale fell in love with their aesthetics and we at Loveramics were equally enamored, leading us to manufacture them to our high standards for use in busy cafes worldwide.

Available in six different colors, the cream cups are the same ones Dale used on stage during competitions. We also offer two simple yet elegant translucent blue and green options. But that's not all - our range has expanded to include three new "Crackle Glaze" colors, specially formulated to create a unique crackled effect that can only be achieved in a small ceramics studio. These cups come in the three popular sizes used by baristas around the world: 200ml, 150ml, and 80ml handle-less cups with no saucer.

Each cup in the Dale Harris collection is a prized piece of pottery, with a glaze that can only be achieved through careful craftsmanship in a small ceramics studio. We are proud to offer these cups to coffee lovers and baristas alike, and we hope they will bring joy and beauty to your daily coffee rituals. Elevate your coffee experience with the Dale Harris Cups, available exclusively from Loveramics.

Urban Glass *Twisted Glass*

Reframing Perception With Style.

Designer of this series:
Simon Stevens

Simon Stevens is an award winning product designer and a driving force in ceramic design. Simon has worked with some of World's most prestigious ceramic manufacturers and has taught and lectured on the subject throughout the UK. He has headed up Design Teams for lifestyle brands and now continues his design career in the established Simon Stevens Design Studio based in London. Simon's dynamic creativity resulted in his most successful designs being in the permanent collections of the Victoria & Albert Museum and the Frankfurt Museum of Applied Art.

About this collection:

We are constantly striving to improve and innovate our products to meet the needs of our valued customers. That's why we took all the valuable feedback we received from our professional coffee cups range and incorporated it into our new Twisted Glass collection. We listened to your requests and made sure to include all the key requirements you asked for.

Our Twisted Glass cups have a thickness of 5mm, which not only makes them durable but also helps to retain heat for longer periods of time. The unique twisted exterior of the cups refracts light in a captivating way, while the curved interior mimics the same feature as our cups. This continuous curve allows for the perfect development of crema and provides an amazing mouthfeel with every sip.

We understand the importance of space-saving solutions for our clients, which is why all our Twisted Glass cups are designed to match perfectly with our existing Egg and Tulip Saucers. This means you can easily mix and match without having to extend your range for different recipes. At Loveramics, we are committed to providing high-quality and practical products that enhance your coffee experience. Try our Twisted Glass collection today and taste the difference for yourself.

Unleashing Limitless Potential

Designer of this series:
Tens Hundreds Thousands

Tens Hundreds Thousands is created to make coffee-related products that they want to own and collect but cannot find anywhere. It was found by James Hoffmann, WBC 2007 champion, coffee expert and youtuber. Everything they produce, they do so in multiples of tens, hundreds or thousands depending on the item's complexity, purpose and scale. Once an item sells out, it's gone forever, making each edition unique and collectable. They team up and collaborate with talented local and international artists, designers and manufacturers to make every project and product a reality.

About this collection:

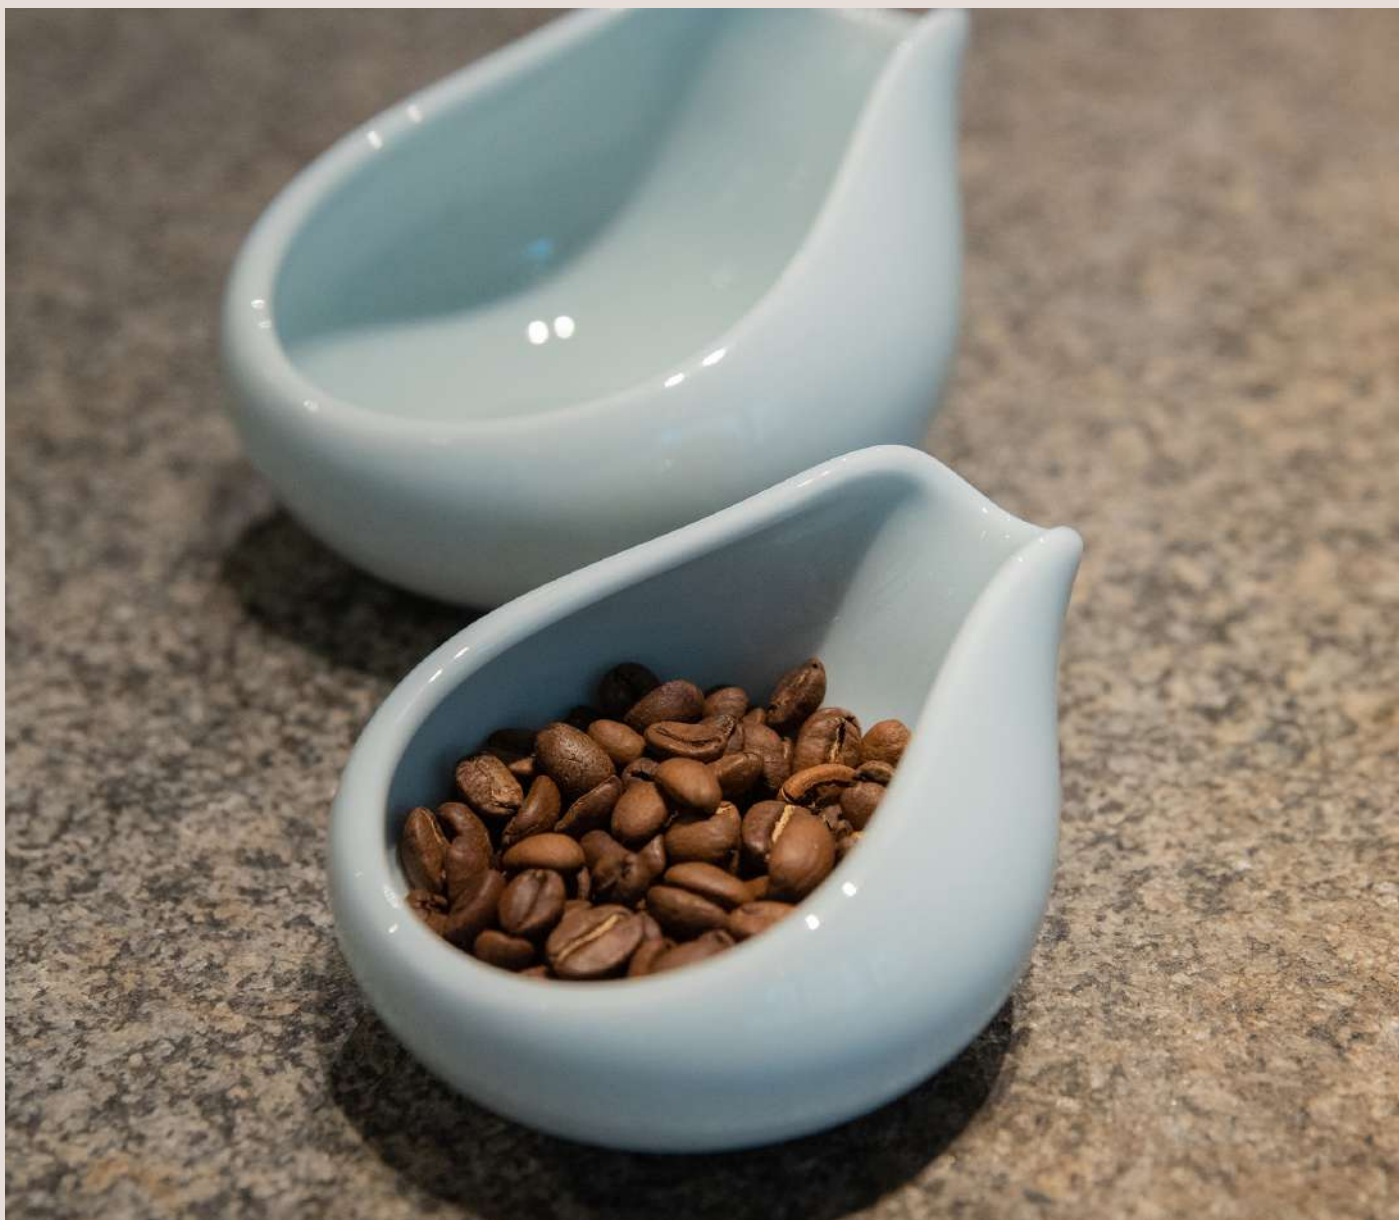

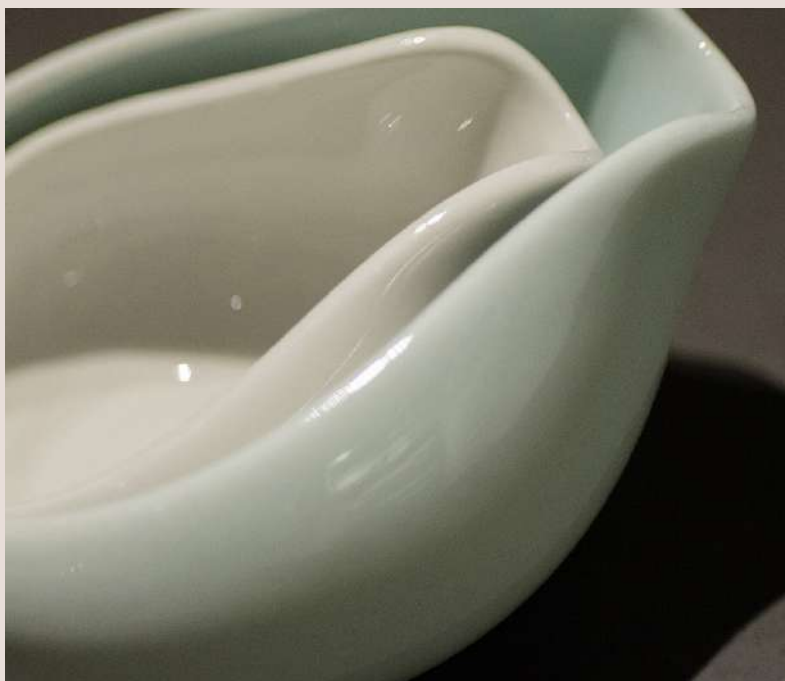

Introducing the new Coffee Dosing Tray from Loveramics, designed in collaboration with Tens Hundreds Thousands. This innovative tool is the perfect solution for weighing and dosing coffee into your grinder. With its wide mouth, you can easily pour in beans without worrying about any spills.

The Coffee Dosing Tray also features a convenient spout, allowing you to pour the coffee beans directly into your grinder. Whether you need to weigh 30 or 60 grams, you can choose between the small or large trays to suit your dosing needs. This versatile tool is a must-have for any coffee lover, and you can often spot it in James Hoffmann's YouTube videos.

Experience the perfect balance of form and function with the Coffee Dosing Tray from Loveramics. Made with high-quality materials and designed with precision, this tray is not only practical but also aesthetically pleasing. Elevate your coffee brewing experience with this essential tool, and join the many coffee enthusiasts who have already fallen in love with it. Get your own Coffee Dosing Tray today and take your coffee game to the next level.

About this collection:

Life can be hectic and we are constantly on the go. That's why Loveramics has created the Nomad Double Walled Mug, to help you make the most out of your busy day. With this mug, you can enjoy a barista-quality coffee experience wherever you are.

Unlike other drinking tumblers, our Nomad Mug is made from true, green materials that are environmentally friendly. While it may not be completely seal proof, we have designed it to be made from inert materials that cause zero harm to the environment at the end of its life. Plus, the mug is easy to clean and keeps your drink hot for longer, thanks to its ceramic and glass construction.

Not only is the Nomad Mug practical, but it is also aesthetically pleasing. You can easily operate it with just one finger and take it with you on the go. And even without the lid, it still looks beautiful and can be used as a home decor piece. So why settle for a regular tumbler when you can have a stylish and eco-friendly option with the Nomad Double Walled Mug from Loveramics?

Barista Quality

Bringing the barista vibes to you, no matter where you are. Get ready for a coffee experience like no other.

Round Base

The Nomad Mug pairs perfectly with your Espresso Machine, enhancing the flavor and preserving the coffee crème with its curved internal wall. Sip on, coffee lovers.

Designs

The lid uses a simple mechanism. It allows you to open it easily with your thumb single-handedly.

For the Environment

Crafted with top-notch, long-lasting materials, the Loveramics Nomad Mug is your go-to for eco-friendly coffee enjoyment that lasts for years.

Market Tasting Cup with String
Refresh, Recycle, Revive

About this collection:

At Loveramics, we believe that every cup of coffee is an opportunity to connect with others and create meaningful moments. That's why we carefully consider all kinds of coffee occasions when designing our cups. Whether it's at a bustling coffee market or a cozy catch-up with old friends, our cups are there to elevate your tasting experience and bring people together.

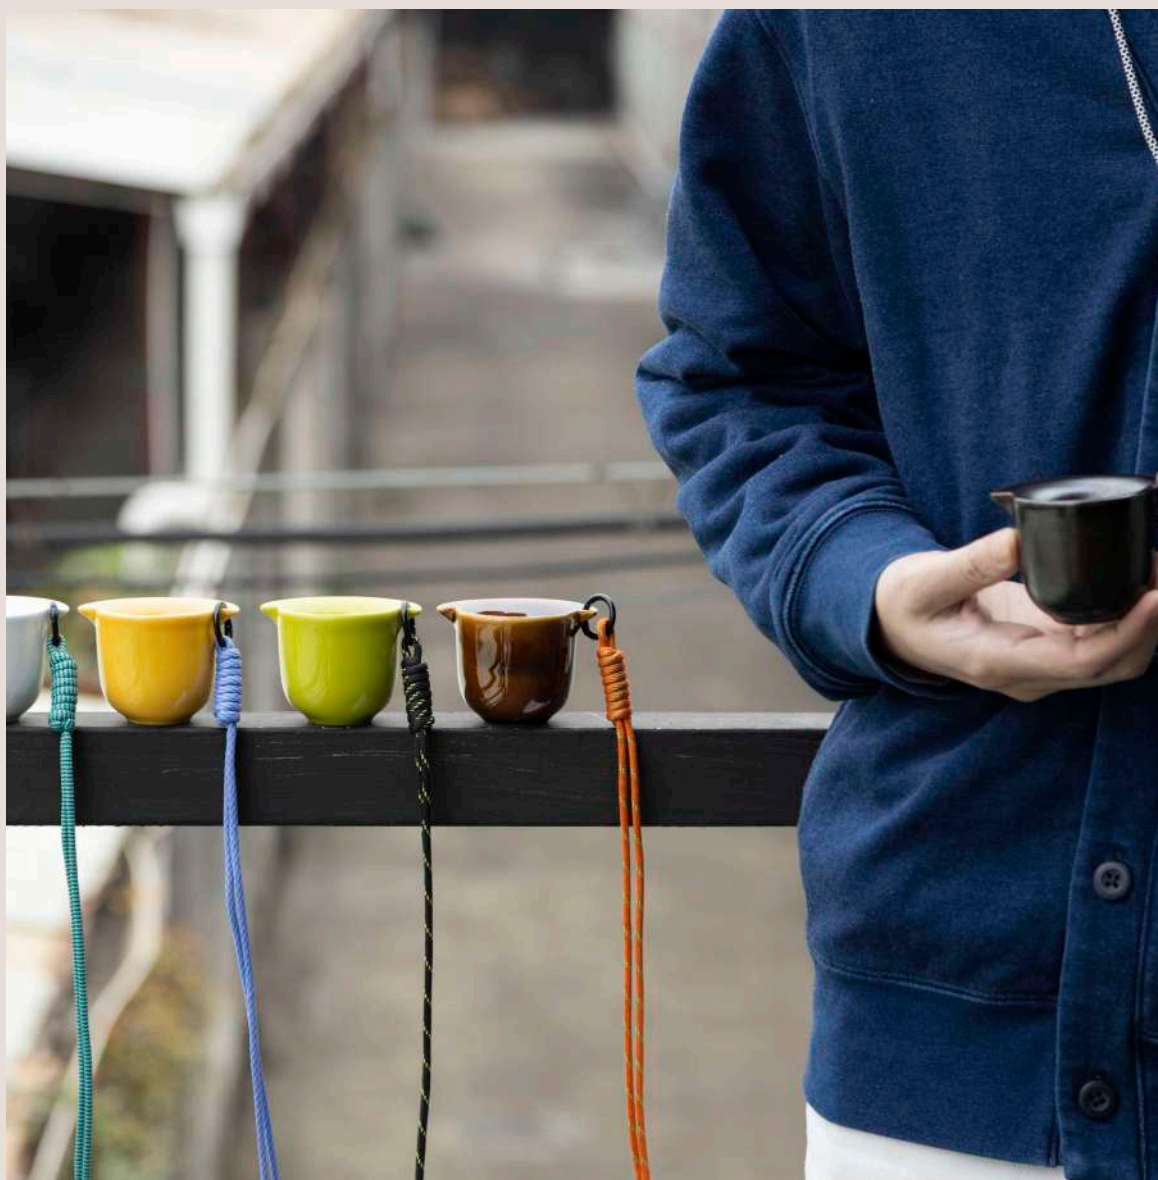

But as much as we love coffee, we also care deeply about the environment. That's why we are proud to introduce our new line of environmental-chic, portable coffee cups. Made from durable ceramic and featuring a modern design with an attachable string, these cups are the perfect alternative to single-use cups. So not only will you be enjoying your coffee in style, but you'll also be making a meaningful impact on our planet.

Designed specifically for market go-ers and coffee enthusiasts, our cups are lightweight and perfectly sized to carry around. With their double-sided shapes, they capture the intricate aromas and flavors of specialty coffees, allowing you to fully immerse yourself in the vibrant market atmosphere. Plus, with five different colors to choose from and a designated string, our cups are sure to become your new favorite coffee accessory. Join us in our mission to create a more sustainable lifestyle, one cup at a time.

Transforming Your Senses

Designer of this series:
Simon Stevens

Simon Stevens is an award winning product designer and a driving force in ceramic design. He has headed up Design Teams for lifestyle brands and now continues his design career in the established Simon Stevens Design Studio based in London. Simon's dynamic creativity resulted in his most successful designs being in the permanent collections of the Victoria & Albert Museum and the Frankfurt Museum of Applied Art.

About this collection:

At Loveramics, we believe that ceramics can go beyond just being beautiful and functional. That's why we've created our innovative colour changing cupping bowls. These bowls are not only visually stunning, but they also have a practical purpose - they change colour at 65 degrees, the perfect temperature for cupping.

We understand the struggles of cupping sessions, with multiple cups and helpers pouring boiling water at the same time. It can be chaotic and confusing, leading to burnt or ice cold coffee. But with our cupping bowls, you can easily see when they change colour and know the sequence without relying on multiple timers. This elegant and efficient solution ensures that you never miss the chance to cup at the right time.

So why settle for traditional cupping methods when you can elevate your experience with our colour changing cupping bowls? Not only do they make cupping more efficient, but they also add a touch of elegance to the process. Trust Loveramics to bring innovation and style to your coffee rituals.

About this collection:

Drawing inspiration from the clean and minimalist aesthetics of Nordic design, the Scandi collection epitomizes simplicity and functionality. Designed by the renowned Simon Stevens, these stepped cups reflect the essence of Scandinavian style through their thoughtful design and craftsmanship.

Each cup is meticulously crafted with a half-glazed body in a beautiful Ivory Glaze, showcasing the artistry and quality of ceramics. The unique stepped design not only adds visual interest but also enhances the tactile experience. Used in nature inspired restaurants and cafes, these artisanal cups bring a touch of elegance to any dining setting.

Practicality meets elegance in the Scandi collection. Available in 120ml and 200ml sizes, these handle-less cups are fully stackable, making them an ideal choice for both home and professional use. Elevate your coffee rituals with the refined beauty and Nordic-inspired design of the Scandi collection.
